

Annual Assessment Tool for Clergy and Staff/Pastor-Parish Relations Committee

Please note: This assessment does not replace the annual consultation form, which will be distributed and collected in the fall.

Note to clergy and committees:

The purpose of this assessment is to discover, develop, and deploy pastoral and congregational fruitfulness in the Rio Texas Conference. Effective assessment systems focus on both the positive areas of ministry and upon the aspects of ministerial effectiveness that may need improvement. They also take into account the partnership between pastor and congregation and honestly assess the health of the congregation's role in that partnership. This document serves as a report on the work of the pastor, but the larger context of the ministerial partnership should serve as context for the assessment.

Read carefully the descriptions and explanations of each of the ratings below. Reflect prayerfully on and provide narrative examples to support the rating selection.

Please complete a summary report for the committee to share in conversation with the pastor. Together you should work to develop a plan of action to address the areas of growth as well as the pastoral and congregational goals for the year ahead. Please sign below to show that this conversation has taken place, and **return this cover sheet plus the following assessment pages to your district superintendent by October 15.**
