

NO GAMES FAX TO IOC PRESIDENT 6-8-09

The Honorable Jacques Rogge
President
International Olympic Committee
Château de Vidy
1007 Lausanne
Switzerland

June 8, 2009

Dear Dr. Rogge,

Our organization, No Games Chicago, was formed in response to the candidacy of Chicago 2016. In a matter of months, we have gained thousands of supporters and followers. We have worked to provide an objective review and analysis of this bid process in the best interests of our city, ~~regio~~ and the Olympic Movement.

No Games Chicago was most appreciative of the opportunity to meet with IOC Executive Director Gilbert Felli and members of the IOC Evaluation Commission during their April visit to Chicago, and we wish to continue the dialogue from that meeting.

During our meeting with the IOC in Chicago, representatives of Chicago 2016 were permitted to observe and be present during our discussion. In the upcoming bid city presentations in Lausanne on June 17-18, we respectfully request the opportunity for our representatives to observe Chicago 2016's presentation to the IOC.

We also request an opportunity to meet with you during your visit to Lausanne as well to share information and concerns specifically regarding Chicago 2016's bid. We would be happy to make our representatives available to other IOC Executive Board members, IOC Members or staff.

We believe it is in the best interests of the IOC and Olympic Movement to be fully and accurately informed before making such a critical decision that will affect the future of so many.

Please let us know if we may be able to respectfully observe the presentation and also arrange to meet with you in Lausanne. For expeditious communication, we can be reached via email at nogameschicago@gmail.com or by telephone 312 235 2873.

Thank you for your kind consideration.

Respectfully,

Robert Quellos
No Games Chicago
