58 Diarrhoeal deaths among Indian children are mostly due to food and water contamination. Use of contaminated groundwater and unsafe chemicals in agriculture, poor hygiene in storage and handling of food items to food cooked and distributed in unhygienic surroundings; there are myriad factors that need regulation and monitoring. People need to have awareness of adulteration and ways of complaining to the relevant authorities. Surveillance of food-borne diseases involves a number of government agencies and entails a good training of inspection staff. Considering the proportion of the urban population that depends on street food for its daily meals, investing in training and education of street vendors is of great significance.

On the basis of the above passage, the following assumptions have been made :

1. Food safety is a complex issue that calls for a multipronged solution.

59 Education plays a great transformatory role in life, particularly so in this rapidly changing and globalizing world. Universities are the custodians of the intellectual capital and promoters of culture and specialized knowledge. Culture is an activity of thought, and receptiveness to beauty and human feelings. A merely well informed man is only a bore on God's earth. What we should aim at is producing men who possess both culture and expert knowledge. Their expert knowledge will give them a firm ground to start from and their culture will lead them as deep as philosophy and as high as art. Together it will impart meaning to human existence.

On the basis of the above passage, the following assumptions have been made :

1. A society without well educated people cannot be transformed into a modern society.
2. Without acquiring culture, a person's education is not complete.

Which of the above assumptions is/ are valid ?

- (a) 1 only
- (b) 2 only
- (c) Both 1 and 2
- (d) Neither 1 nor 2

60 Signs of failure to pull together, as societies and as a global community, are hard to miss—from the growing number of armed conflicts and shrinking number of peace operations, to the crisis in arms control, to the toxic trade war between the United States and China

and the seemingly relentless accumulation of wealth by the world's richest, even as economic shocks have blighted the lives of ordinary people since 2007.

Which among the following is the key idea of the passage?

- (a) Breakdown of cooperation pose a threat to the world peace.
- (b) Peace and Development are in vulnerable state due to rise in conflicts.
- (c) World demands extensive cohesion in order to secure stakes of poor people.
- (d) None of these
