Subject: MCA Notes/Thoughts

My 20,000 foot review of our meetings. Had a good talk with a Florida sunshine law expert yesterday. Anything we send the board is public record. **We either have to be very careful in crafting those recommendations, or deliver the unadulterated critique to each board member individually either in person or telephonically.** I will speak with Dr. Arnn about this. If Kelly inquires, let her know we will give her feedback on Tuesday.
