violated Sunshine Law by not discussing one Board member's departure this school year and not discussing the December 2018 Hillsdale letter which detailed needed areas of improvement. At this point, relationships have been torn irreparably. It is a sad state for those individuals, yes, but it would be an even sadder state for them to be allowed to attempt to take the school down with them. Kelly Lichter named the school after her father - her maiden name. She said she doesn't want anyone else running the school with her dad's name on it - so be it. Whatever happens, we will rebuild - and we will remove the "Mason" name from the school so as to REBRAND the NEW school from the 5 years of bad press that have occurred due to this 1st round of leadership. Hopefully at the end of this process, we can demonstrate to the Naples community what a Classical Academy, founded on Civic duty, can truly stand for and accomplish.
