

I WISH I WAS A SPACEMAN

Have you ever looked up at the stars at night
and wished you could go there?
Wouldn't it be cool if you were a spaceman?
Just think of all the wonderful things you'd see
The stars, the moon, the planets, maybe an alien?
(alien?)

Let's go!
(Lift off!)

[Chorus]

I wish I was a spaceman
So I could fly among the stars
I wish I was a spaceman
So I could fly really far

I wish I was a spaceman
(A spaceman)
I wish I was a spaceman
(A spaceman)

I wish I was a spaceman

[Verse #1]

I wish I was a spaceman
So I could fly around mars
I wish I could fly and see
If there's another galaxy like ours
I wish I had a space rocket
And let the engine rip
So I could fly beside a comet

[Chorus]

I wish I was a spaceman
So I could fly among the stars
I wish I was a spaceman
So I could fly really far

I wish I was a spaceman
(A spaceman)
I wish I was a spaceman
(A spaceman)

I wish I was a spaceman

[Verse #2]

I wish I was a spaceman
So I could look down upon our Earth
I wish I could explore this universe
I wish I was a spaceman
So I could meet an alien
I wish I was a spaceman
So I could see where it's from

[Chorus]

I wish I was a spaceman
So I could fly among the stars
I wish I was a spaceman
So I could fly really far

I wish I was a spaceman
(A spaceman)
I wish I was a spaceman
(A spaceman)

I wish I was a spaceman
