Pool Pump Stolen -- A First for Royal Highlands

Pool pump thefts haven't been a problem for us, but a neighbor lost one to a crook in June. It's not unheard of in North Texas. A couple of years ago, a Southlake policeman found two wet Polaris pool pumps in the back seat of a car he stopped for a traffic violation. The police also found three pawn tickets for other pumps he'd stolen.

The photo above comes from a theft in Las Vegas, which is the world capital for pool pump thefts.

Our crime happened at a home on Faircrest.
