## What Is ISO 9001?

ISO 9001:2015 is the world's most widely recognised Quality Management System (QMS) standard, adopted by over 1 million organisations in 170+ countries. It provides a structured framework for consistently delivering products and services that meet customer and regulatory requirements, built on risk-based thinking and the Plan-Do-Check-Act (PDCA) cycle.

# Why Does Your Organisation Need ISO 9001?

## 5 Business-Critical Reasons to Get Certified

### 1 Win UAE Government Tenders

ISO 9001 is a mandatory pre-qualification requirement for most UAE government contracts, ADNOC supply chains, and large project owner approved vendor lists.

### 2 Reduce Defects & Rework Costs

Organisations typically report 20–40% reduction in operational defects, customer complaints, and costly rework after implementing a structured QMS.

### 3 Build Client Trust

Certification signals world-class quality to existing and prospective clients — strengthening renewals, referrals, and your ability to command premium pricing.

### 4 Unlock International Markets

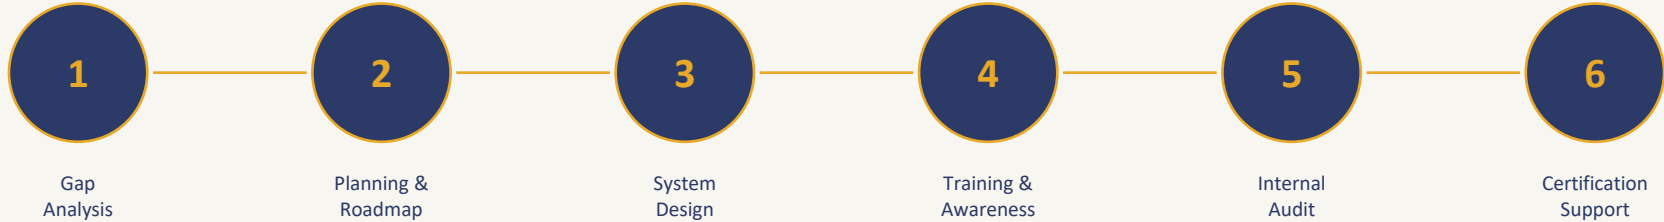

Recognised globally, ISO 9001 opens doors to international partnerships, export opportunities, and global supply chain participation.

### 5 Continuous Improvement Culture

Embeds a systematic approach to identifying inefficiencies and driving improvement across every department and process.

# How QnE Delivers Your ISO 9001 Certification

End-to-End Implementation — Gap Analysis through to Audit Day

## What QnE Does For You

- ◆ Gap Analysis against your current operations vs. ISO 9001:2015 requirements
- ◆ Tailored QMS documentation suite — policies, procedures and process maps
- ◆ Risk & Opportunity Register designed around your specific business context
- ◆ Staff training and awareness workshops at all levels of the organisation
- ◆ Internal audit and pre-certification review to close all gaps before audit day
- ◆ Full support through your Stage 1 document review and Stage 2 certification audit

## The QnE Advantage

- ✓ UAE regulatory expertise built-in
- ✓ First-time audit pass rate
- ✓ Practical — built for your business
- ✓ Lead auditor qualified team
- ✓ 22-template document library
- ✓ Post-cert. maintenance support
