

Lyn Lasneski

Big corporations agree: there is a genuine "Creativity Crisis" on the planet. Lyn believes, "*Genius is not rare, just rarely taught!*" The world is in desperate need of solutions and innovations that can be met only by those who **believe and receive** the truth of their own personal genius. Whether for conferences, corporate events and/or retreats, Lyn is an authentic and lively presenter who creates space for audiences to make quantum shifts in their thinking. She brings the joy and breakthrough that inspires the sustained changes needed to live creative, meaningful and happy lives... and to transform the world.

THREE OF LYN'S MOST POPULAR PRESENTATIONS:

4 Proofs You Were Born a Genius...

The real issue is we have been "degeniusized" both by the beliefs of our culture and our educational systems. In this talk, Lyn shares stories that help create the paradigm shifts needed to overcome our cultural and educational biases. In this engaging presentation she identifies the basic thinking skills every genius depends on, and our education ignores; expanding creative capacities and possibilities.

The Secret Life of Your Brain

The "hidden-in-plain-sight" keys to real genius are already available and accessible in your own mind. Genius has a secret and powerful language all its own- a visual language. It's a different way of "thinking" that is easily learned, but has not been taught in schools! It's actually taught OUT of us. Lyn teaches how the arts hold potent keys to reawaken genuine genius within. Audiences leave feeling empowered!

First You Shape Your Beliefs, Then Your Beliefs Shape You

We all know willpower doesn't work to change us or change our lives. We've tried to make our lives better, our bodies healthier, our hearts happier... but we fall back into the same old habits and patterns. We set big, life-changing goals and resolutions, but fall far short despite all our efforts. It's easy to believe that WE are the problem. We don't have what it takes, we weren't made for this, we're no good at this, we don't have enough, WE are not enough. What if the solution is far easier than willpower? Lyn reveals the tools to transformations that are substantial ...and sustainable!

Crafted Imagination... and MORE!

Presentations can be customized as keynotes, workshops, or conference breakout sessions.

"...this is only ONE of the reasons I have been drawn to you. God knew you were going to open us up to a world we have all been longing for and it's wide and spacious and so full of light."

CREATIVE GENIUS

About Lyn

CREATIVE GENIUS SPEAKER, AND WORKSHOP TRAINER!

As CEO and "fly-by-seat-of-your-pants" genius at **Your Creative Genius**, Lyn inspires and co-conspires (with Divine Wisdom) to elevate people from every facet of life to live more creative and meaningful lives. She works with entrepreneurs, scientists, artists, homemakers, etc, to discover and access the "lost" creativity and genius still dormant within.

Lyn is known for captivating her audiences with her personal stories of breakthrough, and what it is like to journey into the realms of Creative and Innovative Thinking.

Her rich background as a bush pilot in Alaska for 10 years, as a CFI (Certified Flight Instructor) and her Aviation Science degree from University of Alaska Fairbanks, generates a library of stories that will inspire. She also draws on more than 20 years as a workshop instructor, National Award-winning artist, international speaker and genius researcher. She shares the secret skills of geniuses, that will resonate powerfully as truth, then activates her audiences to access and implement their genius right away, awakening the creative capacities they didn't know they had.

She teaches and trains, brings healing to hearts and minds, and offers practical tools that audiences are empowered to use on their own personal journey into happier, healthier, more creative lives.

"Einstein said, 'The intuitive mind is a sacred gift and the rational mind is a faithful servant. We have created a society that honors the servant and has forgotten the gift.'"

"When you reawaken the creative gifts and capacities hidden within, you feel like you've finally found yourself, and that you can change the world. And then you DO change the world, beginning with people and things most important to you. Your life gets bigger and bigger, and then you can't contain it. You expand and bring the creative solutions and innovations that only you can bring-- and we all so desperately need!" ~Lyn Lasneski

"Lyn, I just wanted to say thank you! My prayer this morning: 'I want to be changed today. I don't want to walk out of there the same. Today I want to be changed forever'. I don't usually pray this sort of prayer ...but there was something different about today. I sensed it and went with it, and so glad I did! It was a privilege to say the least to hear you. I am a genius!!! I just cried and laughed with deep joy! I just wanted to say a massive thank you for who you are and, for doing what you do. I am a genius and I am changed forever." ~Lisa,
