Message from the President

We attended the USAWS Hall of Fame Induction Banquet this weekend to support Mark Ritchhart and his introduction into the Hall of Fame. Larry Meddock talked about the meaning of words. He used words like influential, hard working, committed, ETC., describing the inductees. I said all of this to say the new buzz word for the AKA this year is going to be Passion. Passionate people being passionate about our sport. When you speak of the sport do it with Passion. Webster says Passion is to hardly contain your emotion... As we plan events let's do it with Passion. Do it from the heart to have Passion for Our Sport....
