## About Us

Since our establishment in 2013, iStudy Learning Center has become a leading provider for IB and IGCSE academic support in Hong Kong, delivering high-impact results in both small-group and one-to-one settings.

Proven Academic Outcomes: We specialize in the IB Diploma Programme (IBDP) and IGCSE curricula for students in Hong Kong's international school network. Our track record of excellence includes supporting over 50 students in achieving a perfect 45/45 IB score and over 85% students attaining 40+ points, a 30% boost in authoritative visibility through clear statistics.

**Bridging Curriculums, Building Success:  
For both International & Local Students.**

T&C Apply

# 2-WEEK ESSENTIAL SKILLS COMBO

SUITABLE FOR YEAR 4-9

6 HOURS PER SUBJECT

## SUBJECT 1 ENGLISH PRESENTATION & PUBLIC SPEAKING

### MASTERING PRESENTATION AND PUBLIC SPEAKING SKILLS

This course enhances students' presentation and communication skills while building confidence in public speaking. They will learn how to engage audiences through storytelling, strengthen audience interaction, and handle challenging questions and interruptions effectively. The program includes role-playing challenging scenarios and provides practice opportunities, with assessment based on participation, engagement, practice presentation performance, and a final presentation evaluation.

**Presentation & communication skill**

**Building confidence in Public speaking**

**Techniques for handling difficult questions and interruptions**

**Strategies for effective audience interaction**

**Role-playing challenging scenarios**

**Engaging audience through storytelling**

# 2-WEEK ESSENTIAL SKILLS COMBO

SUITABLE FOR YEAR 4-9

6 HOURS PER SUBJECT

## SUBJECT 2

## REAL-LIFE MATH & PROBLEM SOLVING

### APPLYING MATH IN NATURE, TECHNOLOGY, AND REAL-WORLD PROJECTS

Problem Solving and Engagement is a hands-on course that connects math to everyday life and the environment through interactive activities. Students explore math in real-life, learn problem-solving techniques, and discover how technology uses math—such as in strategy games. They also build engaging projects based on mathematical concepts and develop their skills in presenting their ideas clearly.

Interactive activity

Math in nature and the environment

Problem-Solving techniques

Exploring how technology uses math

Math in strategy games

Creating projects based on mathematical concepts

# 2-WEEK ESSENTIAL SKILLS COMBO

SUITABLE FOR YEAR 4-9

6 HOURS PER SUBJECT

## SUBJECT 3 SCIENCE EXPLORE

### JOURNEY THROUGH THE COSMOS AND ENGINEERING

#### Features:

- Design and build simple engineering models
- Emphasis on teamwork and collaboration
- Learning research skills and techniques
- Final presentations of group projects

#### Programme Leader: Mr. Tom Blackwell

8 years of experience in the science field, with a strong enthusiasm for teaching.

#### Theme 1: Life Beyond Earth

Investigate if life could exist on Mars or the icy moons of our solar system!

#### Goal:

Students developed research-based thinking skills by using scientific evidence to construct well-reasoned arguments about extraterrestrial life.

## LIFE BEYOND EARTH

#### Young Engineers

#### Theme 2: Young Engineer

As an Engineers in this city of the future. You must plan, prototype, and stress-test every structure to ensure it is 100% safe for the public!

#### Goal:

Student will apply engineering principles to design, test, and improve real-world solutions using knowledge of forces, materials, and energy.

# ACADEMIC HEAD START

## PRE YEAR 7-9

**“The jump from primary to secondary school, or from Year 7 to the challenges of Year 9, can be daunting.”**

Our Academic Head Start program is designed to give students a decisive **“first-mover”** advantage by focusing on the core pillars of the upcoming school year. By demystifying new subjects and advanced concepts before they are even introduced in school, we empower students with the iStudy Advantage, ensuring they stay ahead of the curve.

**Should students start early? Absolutely, because:**

- We create a supportive, comfortable learning environment.
- Students gain confidence and participate more actively.
- Encourages active engagement with the material.
- Helps students learn more deeply.

**CLICK TO  
REGISTER**

**Subjects Offering**  
**Maths | English | Chinese | Science**

 **FLEXIBLE SCHEDULE**      **HKD 2940 PER SUBJECT**

### 6-LESSON FLEXIBLE SET

**Q: How does the flexible schedule works?**

A: Once you apply, our administration team works with you to build a bespoke schedule that fits around your family’s holiday plans.

# IGCSE EXCELLENCE

## PRE YEAR 10-11

**“Strategic Preparation for Your First Global Milestone.”**

Our IGCSE Excellence course provides a strategic head start, offering a six-lesson preview of the curriculum's most challenging topics to help students secure those coveted A\* and Grade 9 results.

### **Why this matters? (IGCSE = foundation years)**

- IGCSE builds your student's academic profile.
- Getting top grades requires both: Consistent hard work.
- Strong exam technique.

**CLICK TO  
REGISTER**

### **Subjects Offering**

**Maths Extended; Core; Additional  
English Language & Literature  
Chinese Language & Literature  
Coordinated Science | Economics | Psychology**

 **FLEXIBLE SCHEDULE**       **HKD 3660 PER SUBJECT**

### **6-LESSON FLEXIBLE SET**

#### **Q: How does the flexible schedule works?**

A: Once you apply, our administration team works with you to build a bespoke schedule that fits around your family's holiday plans.

# IBDP ADVANTAGE PRE YEAR 12-13

**"Navigate the Rigor. Achieve the 7."**

Our IBDP Advantage sessions are meticulously designed to provide an **advanced syllabus preview**, allowing students to tackle the **"Big Ideas"** and complex theories of their Higher Level (HL) and Standard Level (SL) subjects before the term begins.

**Why "Pre-IBDP" course?**

- **Bridges the gap early.**
- **Prepares for IB-style learning.**
- **Covers challenging topics first** - Strengthens weaker areas.
- **Teaches essential study/exam techniques** - Students learn how to meet criteria.
- **Creates academic momentum** - Students start strong from the beginning.
- **Tailored support** - Often designed around students' subject choices.

**CLICK TO  
REGISTER**

## Subjects Offering

**Maths Analysis and Approaches | Applications and Interpretation**  
**English Language & Literature | Chinese Language & Literature**  
**Physics | Chemistry | Biology**  
**Economics | Psychology | Business Management**

 **FLEXIBLE SCHEDULE**       **HKD 4380 PER SUBJECT**

## **6-LESSON FLEXIBLE SET**

**Q: How does the flexible schedule works?**

**A:** Once you apply, our administration team works with you to build a bespoke schedule that fits around your family's holiday plans.

**For Enquiry:**

## Frequently Asked Questions

- **Some courses show flexible schedule, how does it work?**

We understand that summer is a time for family and travel. That's why our Academic Head Start (Pre Y7-9), IGCSE Excellence (Pre Y10-11), and IBDP Advantage (Pre Y12-13) programs do not have a fixed timetable. Instead, we offer a Bespoke Scheduling System:

1. **You Apply:** Tell us your preferred weeks and subjects.
2. **We Build:** Our administration team works directly with you to design a timetable that fits perfectly around your holiday plans.
3. **The Set:** To ensure full mastery of a subject, each course is delivered in a comprehensive 6-lesson set.

- **What is the class size?**

We believe deep engagement happens in small circles. We maintain strictly small class settings so our expert tutors can provide personalized mentorship, ensuring no question goes unanswered and every student reaches their "Aha!" moment.

- **Are the materials included?**

Yes. From the moment they step into the lab, your child is fully equipped. iStudy provides all professional workbooks, laboratory notes, and specialized reasoning modules—no hidden costs or extra shopping required.
