VISION AND MISSION

VISION

Practice Ecofriendly - Our aim to help every one to be environment friendly

MISSION

Create Value - Our purpose to provide sustainable green solutions.

VALUES

Grow Together - Our guiding principles are Passion, Integrity and loyal.

GOALS

Work SMART - Performance with purpose towards vision and mission

SOLUTIONS

ADVANCED SOLUTIONS FOR WATER AND WASTE WATER TREATMENT

Reverse Osmosis

Filtration

Ion Exchange

Sewage Treatment

Effluent Treatment

Electro Deionization

Clarification

Ultra Filtration

Disinfection

Reverse Osmosis

COMMERCIAL WATER TREATMENT

Products:

Filtration
Water Softening
Drinking water purification
Sewage treatment plant
HVAC chemicals

Application areas:

Hospitals
Hotels and Resorts
Office buildings
Educational Institutions
Manufacturing facilities

INDUSTRIAL WATER TREATMENT

Products:

Clarification and filtration
Water Softening
Demineralization
Process water purification
Effluent treatment
Chemical treatment

Application areas:

Pharmaceutical
Food & Beverage
Steel & alloys
Cement & power
Textiles
Chemical & Fertilizer
Others

PURIFIED WATER, STORAGE & DISTRIBUTION

Purified water system with combination of membrane and electro deionization technology.

Capacity: 500-5000 lph

Technology associates:

SPACEAGE – piping

QUA – EDI systems

CNP/GRUNDFOS- Pumps

JUMO/Aster –Instrumentation

DOW/Hydraunautics/Toray – Membrane systems

Alfa/Sukrut-Ultra violet systems

Forbes Marshall – flow meters

COMPACT SEWAGE TREATMENT

Technology: MBBR

Capacity: 25-100 KLD

Benefits: requires less space
portable
aesthetic
less civil works
relocatable

Application areas:

hospitals
hotels
educational institutions
office buildings
Industries

Recyclability: shall be used for gardening, toilet flush, cooling water make up and construction

EFFLUENT TREATMENT

Technology:

ASP
MBBR
MBR
UASBR

Application areas:

Pharma
Food & beverages
Chemical
Textile
Paper
Steel & power

ASSOCIATES

We partnered with market leaders to assist beyond our expertise to help customers with local support.

- NALCO WATER INDIA LTD: Water treatment chemicals
- ROSTFREI STEELS PVT. LTD: Water Storage Tanks
- UNITOP AQUACARE: Multiple Effect Evaporators & Driers

NALCO WATER INDIA LTD,PUNE

Nalco is an Ecolab Group company, leaders in specialty chemicals for water, paper and energy.

Chemical treatment programs for below utility systems.

- Water treatment
- Boilers
- Cooling towers
- HVAC systems
- Wastewater treatment

3D TRASAR
TECHNOLOGY

ROSTFREI STEELS PVT. LTD, DELHI

Large water storage tanks with bolted technology.

Applications:

- Raw water
- Process water
- Wastewater
- Firewater

Advantages:

- 20-25% cheaper than concrete tanks
- 30-40 years life
- Faster installation
- No maintenance
- Re-locatable & Expandable

UNITOP AQUACARE, MUMBAI

Evaporators and driers for process and wastewater.

- Caustic recovery plant
- Multiple effect evaporator
- Agitated thin film drier

Installed over 400 evaporation plants and exporting to Bangladesh, China, Indonesia, Nepal and Srilanka.

50,000 sqft. fabrication facility in Thane.
