

Rhyming  
Through  
**GENESIS**

*Rhyme by Robert Blair -- Illustrations by Joel Seibel*

**Here Comes the Navy**

At first no ships were expected,  
Because all land was connected.

But God moved the land,

Into continents, and . . .

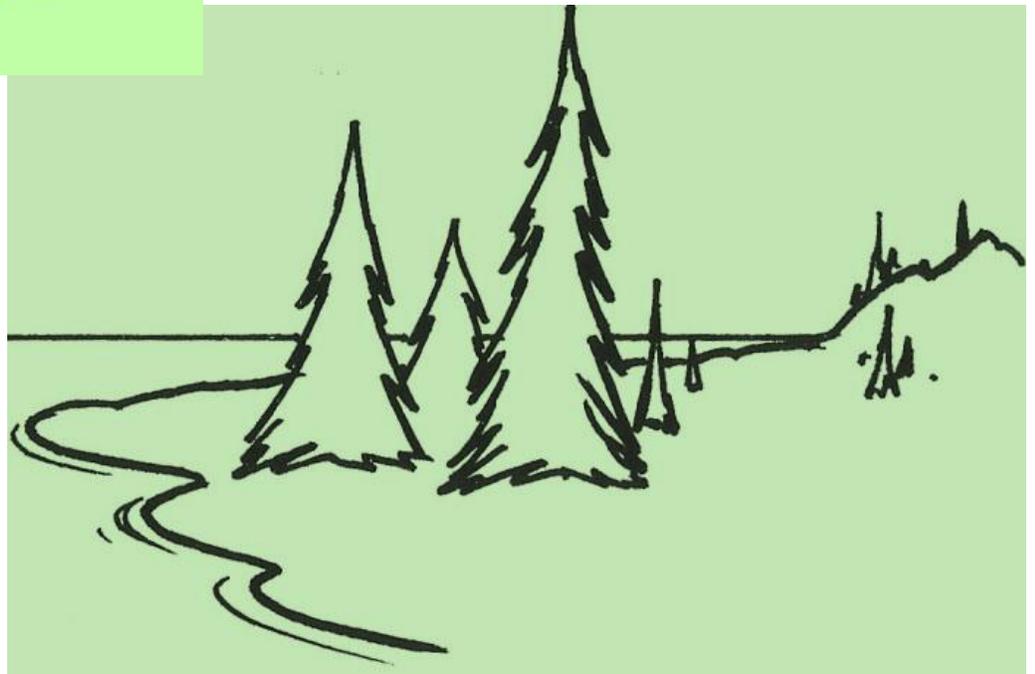

Now overseas travel is perfected.

See Genesis 1:9

**Travel over oceans would have been unnecessary because all the continents were joined.**

**Would you have liked to live then?**

**Scientists call the movement of large land masses plate tectonics.**

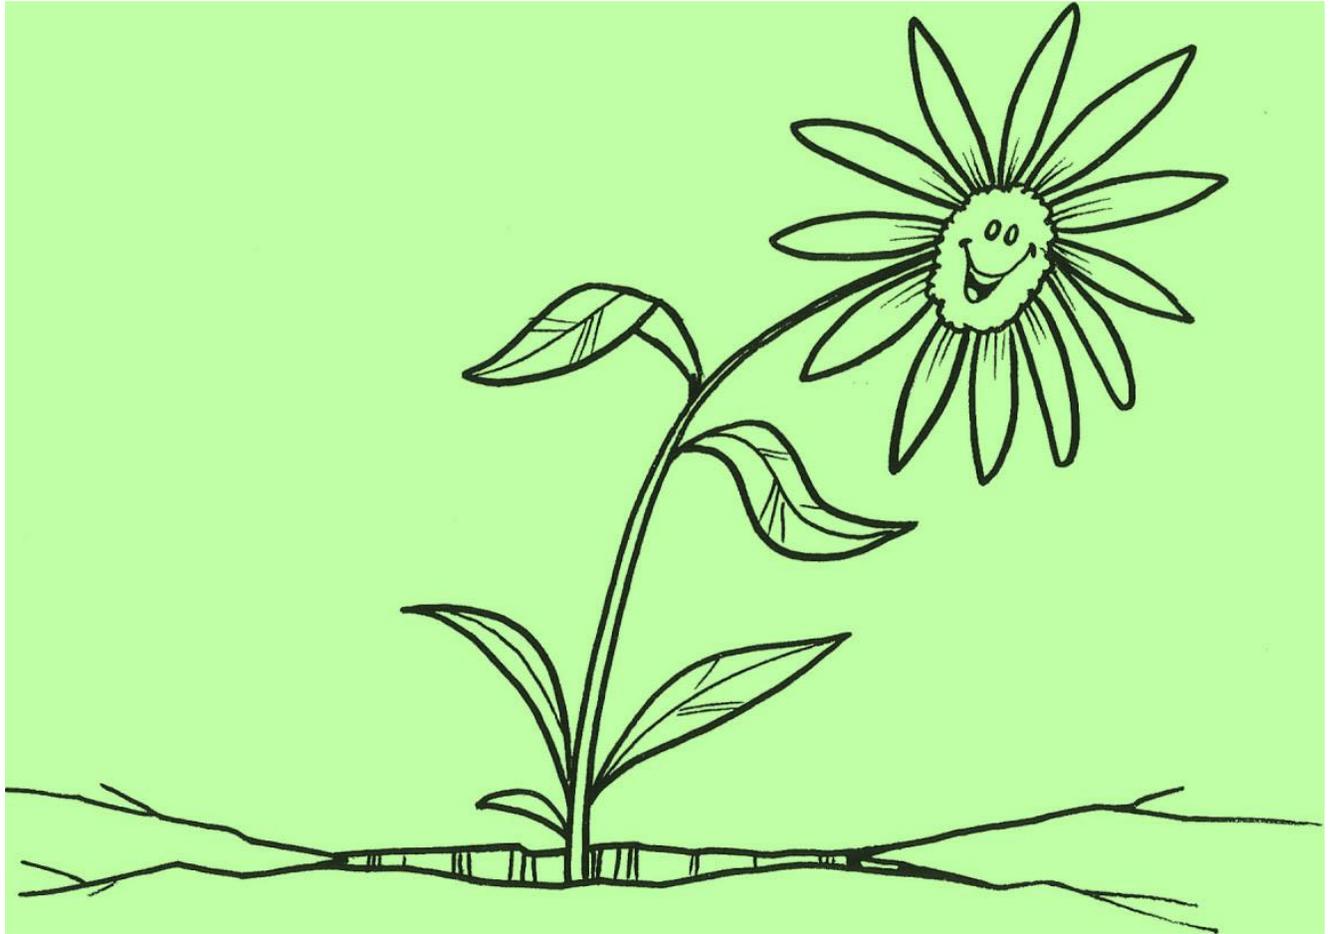

## The New World

In the days when the earth was young,  
Before robed choirs had sung,  
There was not one church steeple.  
But to greet God's good people,  
Smiling flowers from the soil had sprung.

See Genesis 1:11-13

**Do you have a favorite flower?**

## **The Lord's Awesome Animals**

The animal population was none.

With creation God wasn't done.

He made giraffe and zebras.

Were they after amoebas?

Making a hippo must have been fun.

See Genesis 1:23, 24

**Among our favorite animals are hippopotamuses.**

**Which of God's animals do you like?**
