Hello TRM families, I am Kelly Lewis, the new Special Education Coordinator. I am excited to join our Montessori community and humbled to lead responsive and effective special education services with our amazing team of caring teachers, paraprofessionals and specialized staff.

As a parent I have been a strong advocate over the last 20 years for my own daughter who lives with disabilities and I understand education is all about relationships. Each of us has a story that is being written everyday in the relationships and experiences we have. I have been a parent advocating at the table for my own child in educational services so I share that as part of my story. I believe parents and caregivers are the experts in their children and teachers and specialized staff share an area of expertise to promote healthy outcomes for all students. Our collaborative goal as a Special Education team is to partner with each family and celebrate your children and foster their social, emotional and academic learning.

I am always available to connect, listen and learn about your children and I value your insight. Please reach out anytime.
