

4th Grade Math & Science - Week 2

Hello Parents and students -

I wanted to touch base with you regarding your math and science at-home work assignments. I know you have been working on math lessons 81-84. Those should be completed by tomorrow. Please keep the work and I will ask to see it next week during an online meeting with you. Attached is a resource that I want you to start using for Science Weekly curriculum. Look for your name attached to a coupon. The registration code by your name is your access to Studies Weekly website. This is a great resource for science. On the website, you will find the weekly readers, videos, questions for the articles, vocabulary and more. I would like to continue our science program and learning using this tool. Please go to www.studiesweekly.com/newstudent and use your code to get started.

Next week - March 30- April 3

complete-

Math Lessons 85-89

Science Weekly Week 20 Earth-Space Science (Shaping the Earth)

At some point next week, we are hoping to have a Virtual Class Meeting. Fingers Crossed.

I hope you are all doing well. Questions on anything, please email or call. Thanks!

Mrs. Kittle
