

A young boy with short brown hair, wearing a plaid shirt and overalls, sits cross-legged on a vast, green, grassy field. He is looking up at a dark, saucer-shaped UFO hovering in the night sky. The sky is filled with stars and a faint, glowing light source behind a range of dark, silhouetted mountains in the distance. The overall mood is mysterious and awe-inspiring.

# ALIENS AMONG US

**"THE UFO PHENOMENON BEING REPORTED  
IS SOMETHING REAL AND NOT  
VISIONARY OR FICTITIOUS."**

**–General Nathan Twining, Chairman, Joint Chief of Staff  
(Memorandum to Commanding General of the Army, September 23, 1947)**

In December 2017, *The New York Times* published an **undisputed** account of what might once have sounded like a crackpot conspiracy theory ripped from the front page of *News of the World*, that the Pentagon had spent five years investigating “unexplained aerial phenomena” – aliens may actually be among us.

Former Senator Harry Reid who championed the study and earmarked millions of government dollars towards it stated,

**“The truth is out there”**

It has been over 70 years since the “**Roswell Incident**” which changed the way we look at humanity’s place in the universe.

Since then, countries around the world documented classified reports on unexplained aerial phenomenon. Recently, the United States de-classified thousands of documents relating to extraterrestrials **on this planet.**

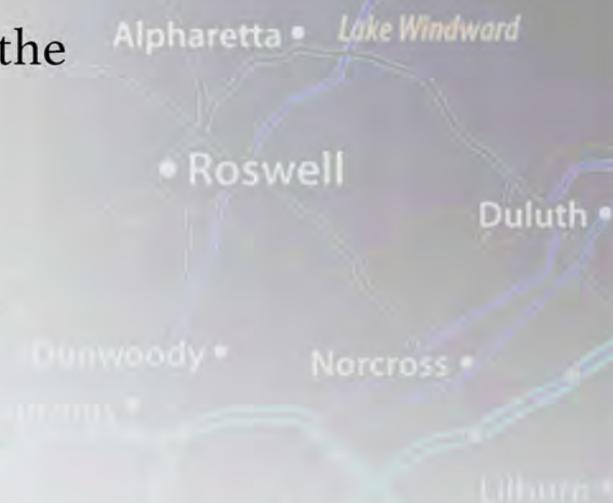

And there’s **video.** There are **eyewitnesses.**

According to the President of the United States, there may even be an entirely new branch of the military: “We’ll call it the Space Force.”

This is **not** a science-fiction novel.

This is **not** a Hollywood movie.

This is our reality.

From the producers of **Paranormal Acitvity**, **The Jinx**, and **Unsealed** comes **ALIENS AMONG US**, a ground-breaking new documentary series that investigates a shocking theory:

What if the aliens are not only visiting us in the sky but are actually living with us on the earth as it is theorized they did thousands of years ago?

Every half-hour episode of **ALIENS AMONG US** tackles one compelling case by opening a documented report and taking both a scientific and a social look at one alien species believed to be living among us.

## **WE ARE NOT ALONE.**

Some ancient alien theorists believe alien species could be fully immersed in our society today, even having infiltrated the highest levels of government. And some everyday people with theories of their own take to the streets to prove it.

Governments all over the world are developing new technology to communicate with aliens. Silicon Valley is investing **millions** in top secret communications software. Scientists are placing bets that humans will find aliens by 2029.

**But we think they are already here.**

As we de-classify documents, expose government cover-ups, and get a real life verité-style inside look at personal encounters, we examine the sightings, abductions, and sinister secrets...all in search of the **truth** about aliens.

## ACT TWO:

- We follow real people as they discover they or people they know test positive for a rare gene scientists equate with an unknown earthly origin.
- The gene that produces Rh-negative (only 15% in the world) is largely present in Caucasians, with the highest concentration found in a small region on the Iberian Peninsula between France and Spain, known as the Basque region. 40 percent of the population is Rh-negative. Those from the Basque are also the only people of Western Europe who continue to speak an indigenous Indo-European language – an isolated tongue not spoken anywhere else in Europe. But this language is not just isolated, it's completely unrelated European dialects.
- We examine the long skulls found in North America as well as the skeletons of the “Giants” that were unearthed in Peru in 2014
- We talk to scientists and enthusiasts who believe the Annunaki were mankind's forgotten creators – we'll tie in biblical references:

*Genesis 6:4 "The Nephilim were in the earth in those days, and also after that, when the sons of God came in unto the daughters of men, and they bore children to them; the same were the mighty men that were of old, the men of renown."*

## ACT THREE:

- **ALIEN SPECIES:** Annunaki – we know who they are and where they came from but now... what is their agenda with mankind?
- Are the Annunaki still here on earth with us today? Known as “those who from heaven to earth came” – many alien theorists believe some are still here but have gone underground – possibly in Navajo Nation?
- We compare the authentic verité footage of our real-life “investigators” to corroborate theories and pinpoint modern alien activity, and examine the video evidence of the Annunaki “giants” spotted in Egypt near the pyramids of Giza in 2016
- Final thought: Why are they still here? If they genetically engineered us do they think we are their slaves? And last, when will they make contact again?
