To Whom it may concern,

I met Diane with Diane's cleaning service this winter when I was doing Matthews Senior living in Oshkosh. It was a 40k sq. ft. 53-unit wood structure building.

Diane and her crew were extremely flexible on anytime of day I needed them to clean any wing of the building day or night. I was very happy that they always showed up when they were scheduled and also hit the date to be done every time.

I was very happy I choose to try out a new company for my cleaning they took pride in every unit they did. Diane was having a hard time getting the doors completely clean but, she didn't care on how many times it took she wanted them perfect. If there was ever anything above and beyond, I needed she was always making sure it was done.

I would highly recommend Diane's cleaning service next time you need a building cleaned of any size they really did a nice job and will definitely use them again.

Sincerely,

Jason Wendt
