

# ENVIRONMENTAL POLICY

It is the policy of **Capital** to operate its company in a manner that recognizes its responsibility to and for the environment. Therefore, the company is fully committed to pursuing and practicing the best environmental practices whenever possible.

## THE KEY POINTS OF OUR STRATEGY TO ENVIRONMENTAL PROTECTION

- - Compliance with Environmental International, Local regulations and standards
- - Establish sound environmental objectives and targets and a process of reviewing them
- - Development, documentation and implementation of relevant procedures
- - Use of Environmentally sustainable technologies and practices during our planning, designing and decision making processes
- - Making this policy available to the public
- - Minimize toxic emissions through the selection and use of its fleet and the source of its power requirement.
- - Actively promote recycling both internally and amongst its customers and suppliers
- - Minimize waste through careful and efficient use of all materials and energy.
- - Purchase sustainable products wherever feasible [e.g. recycled, FSC or low environmental impact products and energy from renewable sources].
- - Reduce risks from environmental, health or safety hazards for employees and others in the vicinity of our operations.
- - Wherever possible, to use renewable or recyclable materials.
- - Capital commitment to environment protection is understood in all the organization and implements this policy via HSE Management System which aims to continual improvement by defining related responsibilities through the organization. Therefore, it is imperative that all employees at all levels and contractors full understand and strictly adhere to this policy at all times.
