Background

Who We Are

The mission of the Carolina Beach Mural Project is to celebrate our eclectic history, inspire our beach community, welcome and engage visitors and become a destination of ART for Everyone through murals depicting life in Carolina Beach.

Established in 2020, the non-profit organization has raised over \$250K and installed 20 murals by world-renowned North Carolina Artists. The program has been featured in local and state magazines, PBS' North Carolina Weekend, local news stations and print, and heavily used in the CB Visitors Bureau campaigns and the backdrop for wedding photos.

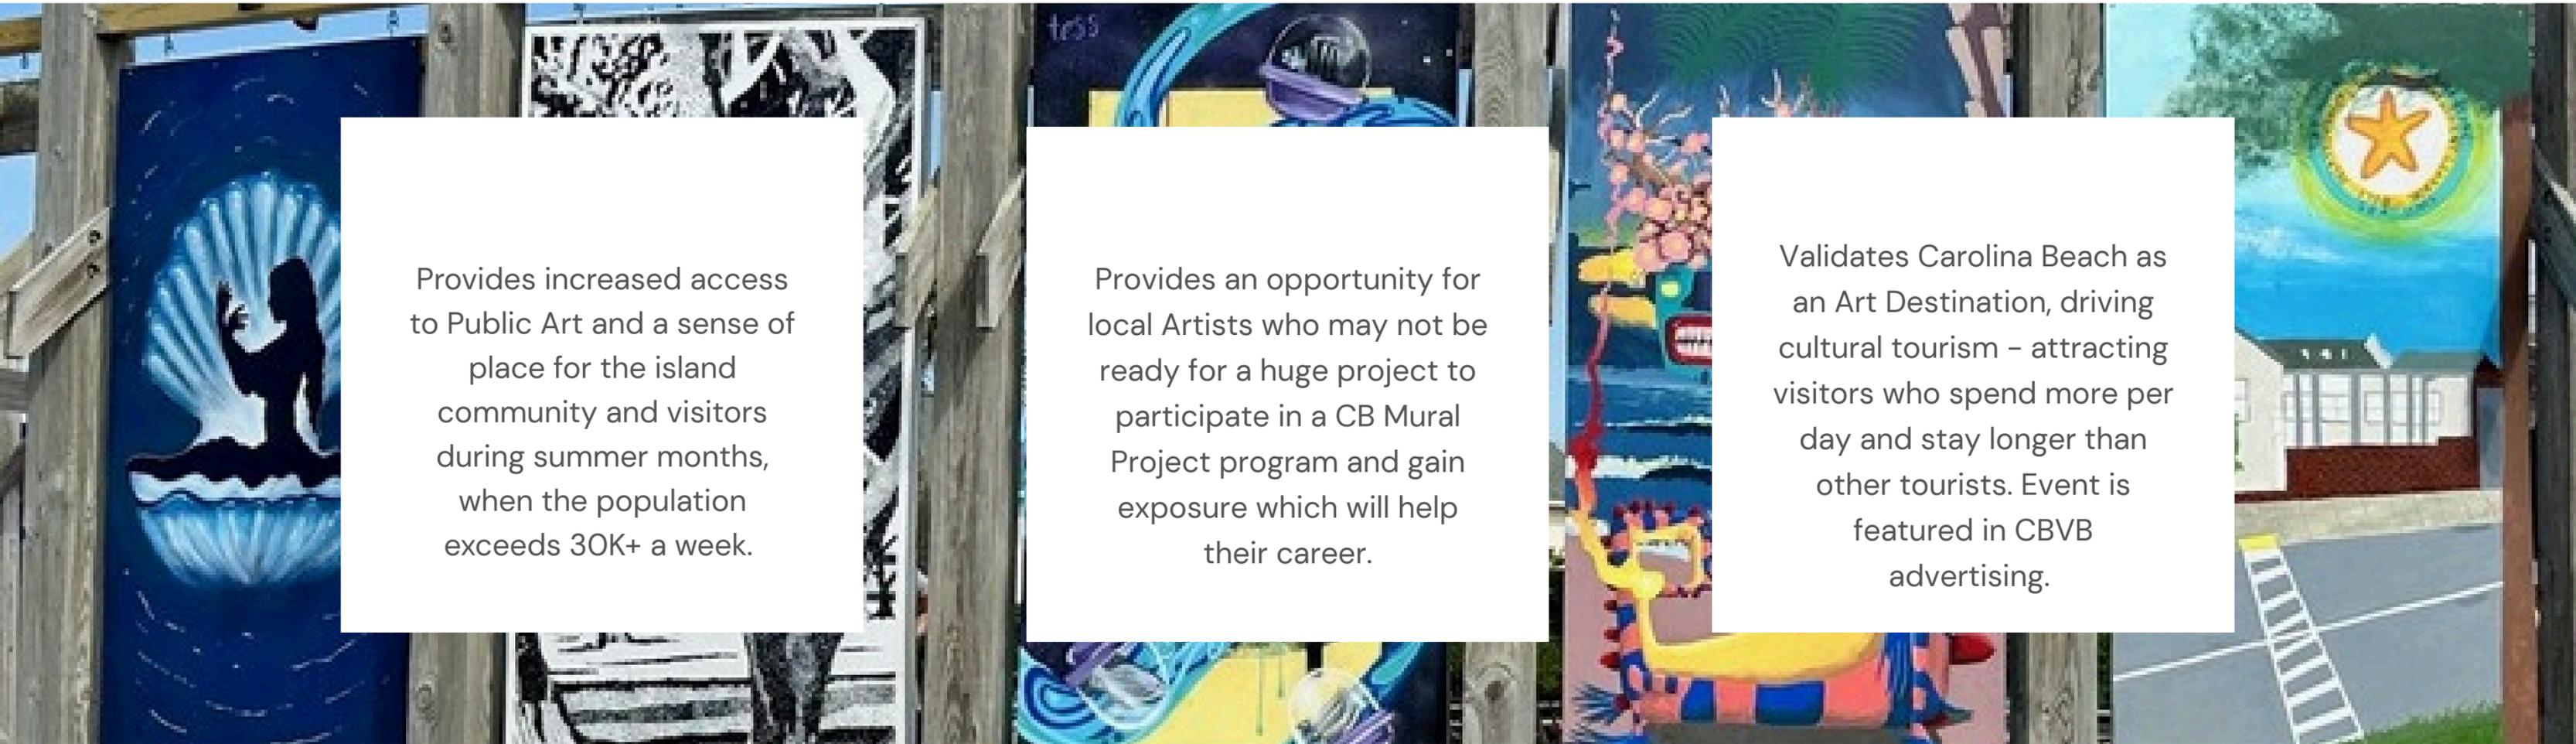

About MuralFest

MuralFest 2026 allows 46 North Carolina Artists and local students to celebrate Carolina Beach through art. Artists will paint on 4' x 4' panels to be displayed on the Stingray Stage at the Lake throughout the Summer. Most of the work will be painted LIVE during the event weekend of May 16-17. The panels will be auctioned off in September, with Artists keeping 50% of winning bid.

The weekend of May 16-17 will also include Artist & Vendor tents, Food Trucks, Live Music and other festivities to delight our community and visitors. In addition, we will host the Pleasure Island Children's Business Market on Saturday.

Community Impact

Provides increased access to Public Art and a sense of place for the island community and visitors during summer months, when the population exceeds 30K+ a week.

Provides an opportunity for local Artists who may not be ready for a huge project to participate in a CB Mural Project program and gain exposure which will help their career.

Validates Carolina Beach as an Art Destination, driving cultural tourism - attracting visitors who spend more per day and stay longer than other tourists. Event is featured in CBVB advertising.
