Party affiliation and for how long?

Republican, 23 years

How long have you lived in Idaho?

All my life except for my Military service.

The position you are running for?

Senate, District 11

What is your reason for running for office?

Our government has increasingly been ignoring the people and passing legislation that benefits large corporations while hurting the people. Property taxes are forcing individuals out of their homes, individual freedoms are being violated, and each year our government gets further and further away from its purpose.

What experience do you have that would help you in office?

My military career has instilled in me how to recognize issues and to find solutions. The discipline and leadership qualities I have give me the confidence to remain faithful to those I serve and to not give in to pressure from outside agencies who have their own agenda. I have been heavily involved with my local politics and in just a few short years I have pushed for change that I hope will restore people's faith in their local government. I have created a monthly meeting for residents of Canyon County to speak to their Precinct Committeeman. I have challenged the unethical violations of our Canyon County Republican Central Committee executive board, I have helped to create resolutions to bring fairness and equality in elections to our party, and I have worked to be a voice for local residents against legislators who normally ignore them.

Who do you most similarly pattern your policies after and why?

Rep. Priscilla Giddings. She has maintained her positions many times and has not given in to peer pressure our special interests groups. She has remained true to the values she claims to hold and has always represented the want of the people.

What is the greatest issue Idaho faces today?

Protection of individual rights and freedoms

Who did you vote for for president in the last three elections? (Optional)

Trump, Romney

What is the proper role of the Federal Government?

To recognize and protect those rights bestowed upon us naturally by our creator.

If you could change one thing the current Idaho State administration has done this past year and a half, what would it be?

How they mishandled the pandemic and violated Idahoans' rights.

What is your stance on law enforcement?

Law enforcement is meant to protect the Constitution, protect people, enforce law, and ensure the peace. As long as these principles are adhered to, I strongly support law enforcement.

How would you reduce taxes in Idaho? or From your elected office?

I would like to see something similar to Prop 13 from California here in Idaho to combat property tax as well as return the homeowner's exemption to 50% of the value and not a fixed value. Reduce the salaries of elected officials and certain government employees to be more in line with their constituents. Eliminate government programs and spending that are not required under the Constitution and to allow the private sector to take responsibility for them. Remove corporation tax exemptions that place unfair burdens on residents. Eliminate the grocery tax and look into eliminating or reducing the gas tax.

Idaho is a Right to Work State, do you support Right to Work?

☒ Yes

☐ No

How would you help Idaho grow it's economy and exports?

By lowering our taxes and removing unnecessary regulations and fees, thus making us a more compelling area for natural economic growth and by focusing on the quality of our resources and products we have to offer.

What is your stance on 2A, Assault Rifles, Constitutional Carry?

I am pro 2A. There is no such thing as an "Assault Rifle", and Constitutional Carry is a right our governments are unfairly restricting.

How would you best describe your stance on personal liberties such as: masks, vaccine mandates, freedom of speech, 2A etc...

It is the individual's responsibility to make decisions they feel are correct, without influence or persuasion of any outside entity. As I said before, our freedoms are ours naturally and bestowed upon us from birth by our creator, not by government.

What is your take on the current state of education in the state of Idaho?

Parents are not allowed a voice in the education their children receive. Both Federal and State governments are actively preventing parents from being able to obtain a better education for children and to determine when/how/what the public school system should teach.

What do you know about campaigning in Idaho? Are you prepared to work to be elected?

I have already worked with several local groups and individuals to get this campaign moving as well as several statewide groups. We have raised over \$11,000 so far, we have knocked on over 300 doors, and we have been publicly visible reaching everyone we can. I have current legislators silently supporting my campaign and we will continue these efforts and more to ensure I get elected to help the people.

Additional information you wish voters to know.

These past few years we have seen drastic change here in Idaho. Many of our legislators were silent while residents were being arrested for simply trying to have church services or utilizing public areas. Many other legislators defended those actions and stood with the mandates while Idahoans lost their jobs and their ability to provide for their families. It is now time to remove those that were compliant with the removal of our rights and responsibilities. It is time to get our Idaho back.
