HUB Aquatic Solutions Inc.

engaging features, exceptional fun

we are leading a new era in custom recreation.

Hub Aquatic Solutions is the leading innovator for recreation in aquatic venues. We specialize in the creation of custom play spaces that promote activity and enjoyment.

Our play features are purposefully designed to attract and occupy interest, and engage kids and their families to play. It is our intention to create features that, large or small, connect with people individually and as a community. We are keenly aware that the delivery of exceptional user experiences creates a bond with the features, their activities, the venue, and the community. Our unique approach to play features is centered around the creation of exceptional user experiences.

play value.

Play is the highest form of human expression in childhood. In spaces where child-led play takes over, the opportunity to foster physical, intellectual, social, and emotional development exists. Our features are selected to challenge kids through physical, dramatic, sensory, inclusive, and age-appropriate play.

entertainment value.

Engagement is a critical component to sustainability in all aquatic venues. In a world with high competition for attention, we see opportunity for every feature to exceed the imaginations of kids. Our features are selected to attract more guests, entertain them for longer, and increase the frequency of repeat visits.

custom-build value.

Building features with long lifecycles is more than just employing smart, easy to care for materials. We specialize in features that retain popularity, in many cases for over 20 years. We place high importance on humanization through design, from the tilt of the eyebrows, the quirkiness of a grin, the addition of easter eggs, to the application of colour theory. Our process ensures every feature evokes a positive emotional response by your guests. Our features are selected because they are pleasing both on their own and within their installed play space.

recreation: activity done for enjoyment.

we specialize in
aquatic features that engage kids.

physical
play.

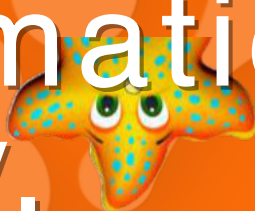

STRENGTHEN THE BODY
AND BUILD CONFIDENCE

inclusive
play.

ACTIVITIES THAT FIT PERSONALITY,
ABILITY, AGE, AND INTERESTS

dramatic
play.

ENCOURAGE AND INSPIRE ACTING
OUT STORIES AND CREATING
NARRATIVES WITH OTHERS

play.

SAFE AND STIMULATING PLAY EQUIPMENT FOCUSED ON
DEVELOPMENTAL STAGES AND INDUSTRY GUIDELINES

fountains & sprays

Custom spray features that engage kids in unique play narratives. Invite kids to be part of the story where sight, sound, and touch are integral to the play space.

- recommended for 0"-24"(0-0.6m)waterdepth
- 72"-96"(1.8-2.4m)typicaldiameter of splash zone for group play
- custom themes,characters, and spray effects
- for shallow pools, spray parks, and river features
- floor mount and overhead features

THEME SLIDES

theme slides

Kids love to slide, especially when inventive, colourful characters join in the fun. And these features turn any space into an iconic play space.

- fiberglass or Soft Play construction
- recommended for 0"-12"(0-0.3m)waterdepth or poolside
- 74"-168"(1.8-4.3m)typicalfootprint length
- custom themes, characters, and spray effects
- anti-slip steps
- safety floor or pad recommended at slide run-out in shallow water

floatables & water walks

Delightful, scalable soft play features that turn any pool into uncharted waters. Set them up individually or group them for an obstacle course, this is an incredibly versatile feature.

- Soft Play construction
- recommended for 36"-60" (0.9-1.5m) water depth
- 42"-196" (1.0-5.0m) typical length for individual and group play
- custom themes, characters, and colour schemes
- easily moved, anchoring kits included
- water walks include powder coated or themed 2 or 4 column systems, single rope or overhead cargo net, turndown pool edge pads

climbers & mini squirts

Free play takes on a whole new dimension with climbing. Alone or with friends, these features are always challenging.

- fiberglass or Soft Play construction
- designed for 0"-6" (0-0.15m) water depth
- custom themes, characters, and spray effects
- available with and without sprayers
- safety floor or pad recommended around Climbers

theming & decor

Whether for the entrance, wayfinding, safety, branding, or sponsorship, we'll create the perfect theming elements to reinforce your unique brand identity.

- signage
- mascots and custom characters
- deck benches and storage
- waterslide theming
- custom environments

waterslides

The reason why we love water slides so much is the feelings they provoke. Twists and turns, straightaways and drops create lasting emotions which surprise us.

- open body slides, enclosed body slides, and speed slides
- single rider slides and multi-lane slides
- fiberglass anti-slip stairs and platforms
- custom design, custom colour schemes
- theming and special effects

waterslide effects

Create new experiences with special effects for waterslides. Themed and standard sound, light, and projection effects providing the ultimate rider experience for guests.

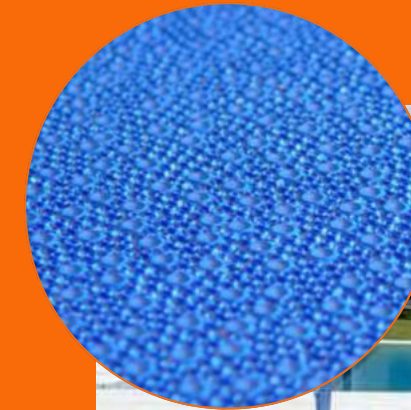

- customize slide exterior patterns
- customize internal and external light and sound effects
- stop / go system
- gaming and competition system
- custom in-ride projection effects
- retrofit lighting effects to existing waterslides

wave pools & surf rides

A full range of wave machines that will thrill riders and spectators.

- Action Rivers- Typhoon, Torrent, Barrel Roll, Superswell
- Wave Pools - Family Breakers, Boogie SST, Superswell, Splash Lagoon, Waves 360 Series
- Kiddie Wave Pools - Wave Play
- Surf Pools - Shorebreaker, Point Break, Point Break Jr, Point Break Olympic, Turtle Back
- Surf Rides- Surf-Air, Stingray, Boardrider, Boardrider Barrel
- Survival Wave Pools
- Disaster & Flood Training Systems

safety flooring

Adding slip resistance, impact attenuation, and a soft, comfortable tactile experience to splash pads, pools and pool decks has never been easier.

- slip resistant to reduce falls, cushioned to protect from impacts
- chemical resistant for aquatic venues
- UV resistance to keep colours vivid
- closed-cell for hygienic, bacteria free operations
- impermeable for a long lifecycle
- retrofit to existing surfaces, custom aesthetic

we are leading

a new era in recreation.

- slip resistant to avoid falls
- cushioned to protect from impact
- closed-cell formulation to keep it free from contaminants
- UV resistant to maintain vivid colours
- chemical resistant to perform with pool chemistry
- easy to clean to keep it hygienic
- impermeable to provide long lifecycle
- soft, textured surface for a pleasing tactile experience
- custom aesthetics
