Funding and Implementation Committee (Chapter 6)

Committee Chair: Roger Peterman , Committee Co-Chair: John Muller, Staff Representative: Joe Ewald, Technical Leadership: Rob Hans, Chris Manning & Sara DiLandro

This committee met initially with interested parties following the City of Fort Thomas Community Plan Kickoff meeting.

Introductions were made and attendees gave a short summary of their background and why they were interested in participating on this committee.

Briefly, a summary of possible goals and objectives of this committee were discussed and they are:

- Review current City revenue and spending
- Have ongoing coordination with other committees in order to properly understand the proposed plan elements. This will allow for correct population of a funding matrix.
- Identify potential funding sources for capital projects & city infrastructure operations/maintenance needs.
- Identify opportunities for funding partnerships and citizen-driven support such as friends groups and volunteers.

The committee attendees expressed a desire to better understand the current function of the city with regards to current revenue and spending. It was decided that the next scheduled meeting will focus on this area. Joe Ewald will provide this committee with documentation related to city finances prior to the next meeting.

Next meeting scheduled for Wednesday, October 11, 2017, 7:00 pm at the City Building.

Committee Members: If any of the above items are incorrect or fail to properly reference the meeting discussions, please let the Committee Chair know.
