Part 1 presents our long-term vision and goals for the future, and provides a general overview of how we arrived at our vision and goals. Topics covered include: an examination of recent trends, an overview of the issues and challenges that are addressed in the plan, a summary of the process and input from public engagement efforts, and a guide for how to use the plan. In essence, Part 1 serves as an executive summary.

VISION AND GOALS – WHERE WE WANT TO BE

As with any planning endeavor, defining an overall vision and set of goals is an important step to preparing an implementable plan. To develop a vision we must look into the future, think creatively and ask ourselves what we want Fort Thomas to be in 20 years or so. But first, it is important to establish our core principles to help frame our vision.

Planning with a Vision

The vision guides goal-setting, policies and actions by providing context for understanding community concerns, prioritizing issues and determining action steps. Plans and actions based on clear goals and objectives are more likely to succeed.

Core Principles

The following core principles form the foundation of our vision for the future of Fort Thomas.

Stay true to our history and who we are as a community:

Small Town Family Values. Fort Thomas has been a family-oriented community for years, which has been achieved through walkable neighborhoods and the scale of homes and buildings within the city, and undergirded by our excellent school system and numerous community events that draw us together. All of these features contribute to the small town feeling we all enjoy, where everyone knows each other and generations remain committed to the city's future.

Sense of place. This is also established through the scale of development, as well as our history which is still evident through the structures and the iconic features, such as the stone wall, tree lined streets, and water tower that remain.

Be Sustainable. Fort Thomas is primarily a residential community. Yet, we need a balance of land uses to help retain an adequate tax base, while at the same time preserving green space and natural resources such as our hillsides and greenbelt along the river.

Build on our strengths. Fort Thomas is known for its quality housing, parks, business districts, riverfront corridor and hillside greenbelt. These are all assets that can be leveraged for our future improvement.

Value collaboration. We understand our community is one of many in the northern Kentucky area all striving for the same prosperity. We have a shared future, one that is influenced by what happens along and near our borders. We all benefit by working together, collaborating and coordinating our efforts to best leverage our efforts.

Continue the momentum and quest for continual self-improvement. Fort Thomas has a history of providing leadership by example, valuing education, and promoting health and wellness.

Vision and Goals

Through the planning process, we have developed an overall vision and overarching goals for Fort Thomas. In addition, each planning topic has more specific goals and objectives.
