# Create a Cartel!

A cartel is a group of individuals and/or businesses that go in together to purchase a single project. You may be looking to only buy half a project... good news, IRCYLH will connect you with another person looking to buy the other half of the same project and the two of you have created a cartel!! You would share the sale price of the project, as well as the meat, however you choose.

- Don't want the meat-contribute it to a local food bank or donate it back to be sold for proceeds to benefit IRCYLH
- Just want to make a contribution? There are several cartels already in existence who collect community donations and we can connect you with them!
- IRCYLH is a 501(c)(3)-all contributions are tax deductible
- Visit our website to pre-register as a buyer or cartel
