

GEAR UP

for the 2025 Hurricane Season

Hurricane season runs from June 1 through November 30.

Take precautions to prepare and protect your family and agricultural operation.

Develop an Emergency Plan

Ensure your household and employees know your hurricane plan.

Gather Supplies

Have drinking water, canned food, a generator, batteries, flashlight, and fuel available in case you lose power.

Remove Debris and Secure Large Objects

Most injuries to animals, people, or structures during a hurricane are caused by flying objects.

Know Your Insurance Options

Regularly review your insurance policies with your agent to be sure you have adequate coverage.

Secure Important Records and Documents

Pre- and post-hurricane documentation is extremely important for insurance compensation and USDA recovery assistance.

It is critical to document inventory of buildings, vehicles, equipment, and livestock before a disaster occurs. Take photos, videos, or make written lists with descriptions.

Access Real-time Emergency Information

Visit farmers.gov/subscribe to receive real-time local information text message and email alerts from the Farm Service Agency (FSA), Natural Resources Conservation Service (NRCS) and Risk Management Agency (RMA).
