

CADDO NATION

NOTICE REGARDING TRIBAL TAGS

The Caddo Nation is addressing the tribal tag issue that has recently been brought to light, and we want to keep our community informed about the situation. The matter at hand arises from a memorandum by the Oklahoma Department of Public Safety, outlining the circumstances under which tribal members in Oklahoma may use a tribal tag in lieu of a state-issued tag. The memorandum, however, does not align with our understanding and has been implemented without notice or consultation with the Caddo Nation.

The Caddo Nation is actively working with our legal team to understand the issue and how it will affect Caddo Nation members with tribal tags. We will provide updates as we uncover more details. Our commitment is to address this matter in a manner that upholds the sovereign rights and interests of the Caddo Nation and its members. We appreciate the understanding and patience of our community during this process. Further information will be shared as soon as it becomes available.
