00:47:38 kfreeman: Do we own Regency Oaks?
00:50:32 Jennifer Reeder: Replying to "Do we own Regency Oa..."
Yes
00:53:11 DIana Parton: Yes we own Regency Oaks.
00:53:42 DIana Parton: Great job on getting those classes lined up!
01:00:16 DIana Parton: Buying up these failing businesses seems to make no sense to me. For example: How does owning a failing clothing store result in a true language program, in a cultural education for at large members etc?
01:00:29 Lauren Haupt: How are we supposed to get in touch with Todd Goodman for the constitution reform? There is not any contact info on the Caddo website.

01:02:28 Lauren Haupt: Replying to "Buying up these fail..."
Agreed, this feels like a meeting for a corporation...seemingly only focused on economic development in-line with white people's businesses.

01:04:18 DIana Parton: I think it's time the Caddo citizens hear directly from the Economic Development Team. I'd like a presentation that pulls all this together for us. It like we are receiving pieces of the plan AFTER they have been executed. I think we need a presentation from the Economic Development team that gives us short - and long-term goals/plans.

01:12:05 DIana Parton: How does a transportation pad in Andarko support the child development center or George's Store or Mcgees? How do they economically support each other?

01:16:08 Amy Heath: The BIA has the trust parcels that have already been mapped online now- <https://biamaps.geoplatform.gov/biattracts/>

01:17:45 DIana Parton: Question for the council: Veteran designation on our car tags. Other tribes have it. Can we do the same?

01:18:33 kfreeman: I am proud of our committee for the vision of helping not only our Caddo Nation, but working with others to help them. Having both sides benefit with providing clothing, shoes, etc. we hitch in turn creates job opportunities and money coming in.

01:19:10 Kelly Irvine [C]: Very nice video about the center. Will there be any reaching out for programming ideas? I'm not a child psychologist but am a clinical and family psychologist and did help with intergenerational programming for Phoenix Indian (Urban) Ctr and many SW tribes when I was with IHS and PIC, also some with LA tribes when I was with Tulane in disaster MH and since my son's illness and this move to Mo I am online with doctor on demand and not doing project or Faculty posts but I continue to have Tribal member patients online from the 39 states my license covers through the Psypact. My work with people is culturally embedded and that has meant family and community centered.

01:21:21 K: Why was McGees failing? Did we do our due diligence when

taking on this business? Do we have the appropriate resources to withstand the business project? I hear the tribal goal, but is it sustainable?

01:21:29 JERI REDCORN: Love the concept in the Child Care video! Sustainability of our lifeways through economic endeavors. Our people have always been traders to sustain our needs: food, clothing, goods, helping families survive. Just my thoughts. Congratulations to Child Care for this vision.

00:12:09 Lauren Haupt: Thank you Bobby and council! You are bringing honor to our people with all that you do.

00:12:13 Cori Bailey: Diana Parton had a few questions regarding the transportation pad and how it's related to the childcare initiative.

00:16:15 Cori Bailey: Someone else, I don't remember who, asked about McKee's. I believe they wanted to know how we acquired McKee's and if we did due diligence before taking on a business such as that. They wanted to know also how we planned on getting that business to thrive.

00:16:37 Kelly Irvine [C]: It would be nice to have a map up sometime about the WCD shared land and it's location generally as well as locations in use by the W and D. We are out of state and have been back to visit but it requires familiarity from living there near the reserve to understand the issue fully.

00:18:16 DIana Parton: We can't hear the Chairman.

00:18:26 Jennifer Reeder: We will open the mic for online questions after Steve finishes up.

00:19:08 Cori Bailey: @DIana Parton You'll have to ask again. They can't see the other questions.

00:23:30 motorola moto g 5G - 2023: Since our tribe of 7000 plus is no longer a democracy and all decisions are made by the council. I would like the min to reflect that all Council members will be responsible for all tribal business and people they hire from the outside (background checks). The buck stops with them. In the past there has been no accountability nor action taken against tribal leaders for theft or being irresponsible for our business and programs failing. Even in those councils we were given some information prior to the decision being made. I realized they did what they wanted anyways and it hurt our people but there was no accountability.

This request is by no means out of disrespect. It's about accountability and a safeguard for our people.
