

## Awards & Recognition

- American Health Care Association Quality Award
- Berea Chamber of Commerce Health Professional of the Year

## Getting Started

Making health care decisions can be difficult. Berea Health and Rehabilitation's Admission Coordinator is equipped to answer many of the questions you may have. To learn more about the facility and services, a tour is a great way to personally see the services and care available. Contact us with any questions you have or to schedule your personalized tour.

## Financial Arrangements

Paying for nursing and rehabilitation services can sometimes be complicated. We will be glad to talk about your specific situation and any programs or assistance available. Payment is accepted from Medicare, Kentucky Medicaid, some private and long term-care insurances, and private funds.

Berea Health and Rehabilitation admits individuals regardless of race, color, national origin, disability, or age.

### Short-Term Rehabilitation

Designed for individuals requiring temporary therapy and skilled care following a stay in the hospital, the Rehabilitation Suites offer comprehensive therapy and medical services to make the transition to home as easy as possible. The dedicated team of Physical, Occupational, and Speech Therapists provide the best in rehabilitation care by combining the latest technology with customized treatment plans to maximize recovery and restore independence.

#### Examples of Rehabilitation Services:

- Physical Therapy
- Occupational Therapy
- Speech Therapy
- Swallowing Therapy
- Orthopedic Rehabilitation
- Stroke Rehabilitation
- Falls and Balance Program
- Cardiac Rehabilitation
- Wound Care
- Daily Living and Self-Care Retraining
- Adaptive Equipment Training

#### Short-Term Rehabilitation Amenities:

- Choose from Private or Semi-private Suites
- Televisions and Cable
- Telephones
- Internet/Wi-Fi

Berea's approach centers on the teamwork of experienced physicians, nurses, pharmacists, social workers and dietitians as well as physical, occupational, and speech therapists. Each person's medical and social needs are met through an individualized plan of care, which is monitored by each member of the team and adjusted as necessary to promote renewal, recovery, and well-being.

### Facility Amenities and Supportive Services:

- All meals and therapeutic snacks
- Housekeeping and laundry services
- Beauty and barber shop
- Electronic security system
- Pharmacy services
- Ambulance and transportation services
- X-ray and laboratory services
- Oxygen services
- Dentist, podiatrist, and optometrist services
- Personal and medical supplies

### Services

**Short-Term Rehabilitation Therapy:** Recovery from an acute illness, surgery, or injury after a hospital stay often requires rehabilitation therapy. The short-term rehabilitation program led by physical, occupational, and speech therapists helps individuals restore independence so they can return home to their normal activities as quickly as possible.

**Post-Hospital Care:** These services focus on medical treatment to individuals transitioning from hospital to home. A broad spectrum of medical and post-surgical care, such as pneumonia, wound care management, coronary by-pass surgery, cardio-thoracic surgery, pain management, and intravenous and respiratory therapies, are offered.

**Skilled Nursing Care:** Skilled nursing care is provided 24 hours per day by a trained staff of registered nurses, licensed practical nurses, certified medication aides, and certified nursing assistants under the direction of a physician.

**Long-Term Nursing Care and Restorative Services:** Berea Health and Rehabilitation offers a long-term placement option due to chronic illness, physical limitations, or memory impairment. A dietitian-approved dining program, spaces designed for safety and comfort, and a full calendar of activities cultivate a supportive, caring environment that empowers each individual.

**Compassionate Hospice Care:** When residents reach the final phase of their life with an emphasis on comfort rather than cure, there is no better place to receive end of life care than Berea Health and Rehabilitation. In conjunction with local Hospice service providers, the facility is responsive to resident and family needs, providing symptom management, emotional, and spiritual support in a compassionate environment.
