

About Us

668 Orion Concrete Products (668 OCPC) is a Filipino-owned and operated company engaged in the business of production and supply of high-strength ready-mix concrete, aggregates, and concrete hollow blocks (CHB) in the Bataan area.

We operate with the highest standards of excellence for quality and service under compliance with existing National and International quality control standards and specifications.

Our Experience

The management and the technical group behind 668 Orion Concrete Products Corp have over 20 years of experience in the cement, aggregates, and concrete industry. Recently, we have expanded into providing high-quality ready-mix concrete, high-strength concrete hollow blocks, and other concrete products.

Our Commitment

Quality

Our products are produced with state-of-the-art equipment using only the best raw materials. Our fully equipped in-house laboratory ensures that all our products comply with both national and international standards.

Reliability

Our large fleet of transit mixers and support equipment are equipped with GPS tracking systems, ensuring a reliable delivery schedule. Large material storage, redundant generator power, and a complete inventory of spare parts in our plant guarantees no interruptions until the last load is delivered.

Our Products

- Ready Mix Concrete
- Load Bearing Concrete Hollow Blocks
- Aggregates (S1, S3/4, R3/4, G1)
