

# COLLABORATIVE INQUIRY IN THE CLASSROOM

## CLARITY THROUGH AUTHENTIC INQUIRY

**Increase student engagement through meaningful, tailored, authentic inquiry processes.**

Having deep understanding of all these elements across a school brings the power of inquiry to life and with it, a wonderful energy from students highly engaged in meaningful learning.

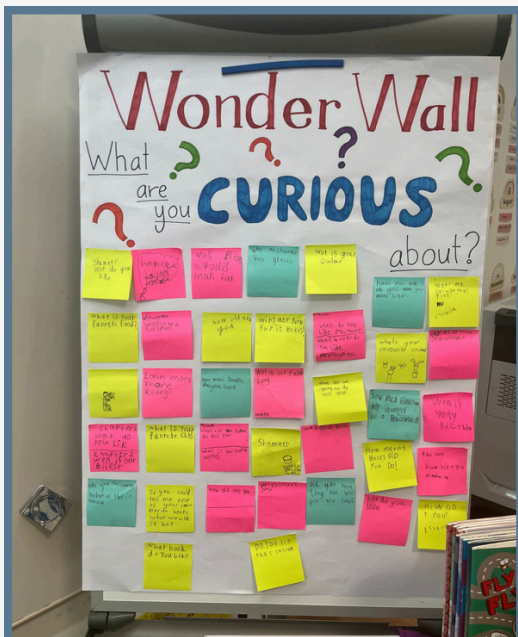

“  
*Inquiry enacted well requires all teachers to share an understanding of what inquiry means and looks like in practice.*  
”

How might a collaborative inquiry differ from an individual passion project?

How can we best design and facilitate student inquiry?

What would we expect to see students doing and saying when they are actively involved in the inquiry process?

## WORKSHOP SERIES FOCUS AREAS

**The workshop series will provide your staff with:**

- Shared understandings of the research
- Knowledge of what CI is, and isn't
- Clarity of how CI increases motivation, engagement and enthusiasm for learning
- Plans for developing collaboration
- Plans for developing an inquiry pedagogy
- Clarity of how to maximise the impact of Inquiry
- Templates and plans for teachers to use and follow
- Ways to continually invite student voice into daily learning conversations
