

# Gush Mintz

## GRADE 3 EXOTIC THCA FLOWER

### 30% Potency – Hybrid Indica Dominant

Gush Mints is an indica dominant hybrid strain (70% indica/30% sativa) created through crossing the classic Kush Mints X (F1 Durbs X Gushers) strains. If you're after an amazing flavor with a sleepy, nighttime high, Gush Mints is the perfect indica for you. Like its parent strains, Gush Mints packs a sweet and sugary berry cherry flavor with a punch of sour citrus and tangy menthol that intensifies the more that you toke. The aroma is just as heavy, with a sharp menthol overtone accented by spicy cheesy diesel and sweet fruity cherries. The Gush Mints high will settle in a few minutes after your final exhale, hitting your brain with a lifted sense of pure euphoria that's accompanied by a heavy happiness that leaves no room for negative or racing thoughts. A soothing body high comes next, washing over your physical form and leaving you feeling fully numb and sedated from head to toe. Combined with its high 19-20% average THCA level, these effects make Gush Mints a great choice for treating conditions such as appetite loss or nausea, chronic pain, depression, chronic stress and insomnia. This bud has dense and conical dusty green nugs with deep purple undertones, lots of leaves and thin orange hairs coated with tiny, purple-tinted white crystal trichomes.

## Certificate of Analysis

For RSD Use Only - Not a California Compliance Certificate.

# Gush Mintz

Total CBD ND

Total THC 26.96 %

Total Cannabinoids 30.73 %

Sample Name:  
Gush Mintz Big

Matrix:  
Plant

Unit Mass:  
1 g per unit

Sample ID:  
46540603-7

Date Received:  
6/3/2024
