

ABOUT

ATLAS FACADE RESTORATION

Our Expertise

At Atlas, we specialize in providing turn key Peel-able Protective Solutions on most nonporous substrates during the construction process. Our technicians can advise and provide you with the right solution to minimize mutilation to your floors, counters, curtain wall, windows and doors. We also provide custom paint repair services for damaged aluminum frames. Our expert painters use only the highest quality air dry Fluoropolymer paint systems, both solvent and water based and we can turn around most color matches within 1 week.
