DISABILITY
SUPPORT CO.

About Me

I enjoy all sports, being outdoors, exercising and going out with friends. Also, I LOVE karaoke! Being a support worker is great because I get to give back by sharing my life experience and knowledge.

Experience

In this role, I have primarily been supporting children and family groups. I have experience managing complex behaviours. As a mum myself, my life experience allows me to thrive in these roles. I have both personal and professional experience with Autism.
