

## About Us

Empowered Dream Hunts Inc., a 501(c)(3) non-profit organization, was created to help outdoor enthusiasts overcome nature's challenges, break barriers, and develop friendships to fulfill their dream.

With the generosity of our community and surrounding areas, Empowered Dream Hunts Inc. continues to provide opportunities for outdoor enthusiasts to enjoy the outdoors through the use of our Action Trackchairs®, adaptive hunting equipment, and blinds. Hunters get a choice of a whitetail deer, pheasant, or turkey hunt. Non-hunters have genuinely enjoyed getting outside in God's Creation doing what they love.

For Fall 2024, our plan is to reach out to two to three eligible recipients that will have an opportunity to experience an amazing adventure.

## Empowered Dream Hunts Inc. Annual Fundraising Campaign

### Goals:

Purchase a Kawasaki Mule Side by Side and Trailer

### Purpose:

We want to be able to meet the needs of more hunters and non-hunters. With the addition of a Kawasaki Mule, we will have the ability to assist individuals with getting out into the fields and woods more efficiently. This piece of equipment can be used with fenced and non-fenced hunts (private and public land), and also general outdoor use for those who need assistance, but don't want to hunt. We are excited to add this piece of equipment as an option for use.
