5th November 2020

PROPOSED CHANGE TO ELECTRICITY PRICE IN SARK

Proposed Variation

I should like to thank all those who took the time and trouble to send in responses to the Proposed Variation of 15th October.

My Office has received 11 responses from residents and interested parties and these have been placed on my Office's website at www.epc.sark.gg. SEL's submission has been delayed for a number of reasons but Mr Jackson has stated that he hopes to be in a position to respond this weekend. Accordingly, I expect to be able to publish my findings by 23rd November, so that any change to the maximum price for electricity on Sark may come into force on 1st December 2020.

Anthony White
