

SIDE BY SIDE

TWO PERSPECTIVES. ONE JOURNEY.

Jacquie & Marc Angell

Most cancer presentations
tell one story.
Side by Side tells two.

“A UNIQUE EXPERIENCE FROM
BOTH THE PATIENT & CAREGIVER

"Stage IV metastatic breast cancer changed our
lives, but it didn't take away our humor, our
relationship, or our belief that life can
still be joyful."

Together, Jacquie and Marc Angell share an
engaging presentation that gives audiences
the rare opportunity to experience cancer
through both the patient and
caregiver perspective.

Honest, practical, and unexpectedly uplifting,
their message reminds audiences that while
every cancer journey is different, no one
has to navigate it alone.
