

# KART MATE®

## Kart Mate Mega Side Walls

Hook the 4 provided bungee cords from the tub lip to the walls as shown to keep walls from falling out when dumping or storing the Kart Mate in the vertical position.

**\*Mega Walls recommended to be used with lighter/loose material, do not fill to top with mulch/dirt**

**\*Smaller mowers may struggle when fully filled with heavier loads.  
Larger mower may be required.**

**\*To make your walls last longer, an outdoor finish is recommended to protect from moisture.**

**\*\*500lbs capacity\*\***
