GLOBAL BIRDFAIR 2025 FESTIVAL OF NATURE

**TAKING PLACE FROM FRIDAY
11TH TO SUNDAY 13TH JULY AIMS
TO INSPIRE ALL GENERATIONS
ABOUT THE NATURAL WORLD**

Held at Lyndon Top Caravan Site by Rutland Water, watch out for Ospreys flying overhead to their nest nearby. The Discovery Zone hosts activities for the youngest visitors on Saturday and Sunday. It also offers a gathering place for visitors attending Global Birdfair for the first time.

Events, lectures and workshops are scheduled throughout the event. Wander around 300 exhibitors in seven large exhibitor marquees. Admire creativity in the dedicated Puffin art marquee and watch artists create the Global Birdfair mural during the 3 days. Join scheduled nature walks and try out the latest optical and camera gear in Falcon and Hobby marquees before you buy; there's great advice from manufacturers for all levels of interest and budget.

Among the exhibitors, learn more from conservation organisations promoting the amazing work they do. Discover more about nature rich destinations to visit around the world and places close to home. Browse the book stalls and meet your favourite nature writers at the book signing stand or listen to their talks in Turnstone authors area. For anyone looking for a nature related career path in field work, science, guiding or tour operating, technology or

writing, find your way to the Young Conservationists Hub to learn more, make friends and create opportunities. When you're ready to relax, choose your favourite catering outlet, grab a drink from the bar and listen to one of the fascinating podcast interviews at the dedicated podcasting station.

One of the most popular activities is the Global Birdfair Bird Ringing demonstration. Get up close to familiar bird species and learn more about them from our qualified volunteer team.

This year's conservation project, Safeguarding Ocean Species, conveys a message to us all about the plight of our oceans and the life which calls it home. Global Birdfair raises funds for BirdLife International, making a real difference to conservation worldwide.

Gates open at 9am each day. Friday and Saturday events run through to the evening, included in your ticket price. Family tickets are available on Sunday; under 18s have free entry with ticket
