

Dear Owners, weather permitting the landscapers will be removing the juniper bushes in the HOA Fri-Mon. This will help us move forward with getting the HOA Firewise certified. The Board will then work with the landscaping team to replace some of those removed with Firewise approved plants. You may be required to move your vehicles if they block the work areas. If you have any questions, please give me a call. Jim Rathbun HOA Manager 928-242-4174 Cell 928-369-4000 Office
