

## **Enjoy hanging in comfort and style!**

Introducing the latest in quality, comfortable men's sleep shorts, JIMMY JAMMYS.

JIMMY JAMMYS understand what you want in the bedroom! It's your safe haven, your pleasure palace, your time to relax, unwind and re-energise. JIMMY JAMMYS understand that sleep matters and our quality, stylish, uber-breathable sleep shorts ensure your shut-eye is as comfortable as possible.

Let's talk from the waist down. JIMMY JAMMYS recognise comfort is for Kings. Our sleep shorts boast a loose-fitting waist area, with the extra length elastic covered in the same quality material as the shorts, avoiding nasty red marks and unavoidable sweating when elastic comes into contact with skin.

Open or closed? You choose! Moving down, we've designed a quick-to open fly area for easy access. An invisible soft strip makes sure that nothing rubs up (or down) the wrong way and topping this we've designed a comfort panel for extra space in the nether region. Quality cotton material means less sweating while you unwind, allowing you to sleep and breathe easy, after all, A King always looks after his jewels!

Just when you thought JIMMY JAMMYS has everything covered, there's one last thing to mention about these crazy-comfy sleep shorts. We believe that bringing colour into your dreams is a priority. Australian designed fun styles match your character and personality. So whether you're tucking the kids in or waking up to make that perfect cuppa, rest assured you're always travelling (or resting) in true Aussie style.

At just \$24.95 make sure He has a pair this festive season or better yet, 2 for \$44.95. Enjoy hanging in comfort and style with JIMMY JAMMYS.
