21st Century Retirement Requires

A Perspective Adjustment

1. At the turn of the twentieth century, the life expectancy for men was 46.3 years and for women, 48.3 years.
2. The leading cause of death, was infectious disease.
3. Those who reached retirement only experienced this lifestyle for a short time.
4. Most of these trailblazers were with one company for their entire careers. They worked “the grind” and looked to kick their feet up *“for whatever time they had left.”*

1. As of the turn of the twenty-first century, the life expectancy for men has climbed to 77.5 years, and for women, 80.3 years.
2. The leading cause of death is no longer infectious diseases, but heart disease, cancer, and other lifestyle induced diseases.
3. Today the retirement years could last 20 to 30 years...*or more.*
4. Many of us Boomers seized opportunity after opportunity and are never going to retire – because we can’t stop working. Our jobs / professions define us.

Disclaimer

DISCLAIMER: Zero Money Retirement is a virtual life coaching and training system. It is a holistic training bent on the development of the "Whole" person. The system is Tried, Proven, Custom developed testing into our students' lives', Physically, Emotionally, Spiritually, Intellectually, Financially, and Socially. **Our coaching techniques and methods are rooted in the belief in Intelligent Design.** Why? With over 30 years of clinical observation, trial, and research, we have observed that determining "*Whose*" we are will be critical to eventually discovering "*Who*" we are – and accepting the limitations of our discovery. "*Who*" we are and being anything, one makes their minds to be are typically the goals of most coaching techniques. Our trials, findings, and research strongly rebuke that approach. It is only through determining where we came from that we will determine where we're going. It is only through the acceptance of our defects of character and limitations that we can develop a successful focused, workable, and closely monitored game plan for our students. However, we do not reject and do not attempt to change the findings and opinions of contrarians. We operate solely from a position of attraction – *not promotion or opposition*. Experience has shown us many want what we offer, making it unnecessary to debate the pundits.

Zero Money Retirement DOES NOT suggest that the system will guarantee success and DOES NOT sell financial products under ANY circumstances.

10 Commandments Of Zero Money Retirement

According to the nonpartisan Economic Policy Institute, nearly one-half of U.S. households are reporting zero retirement savings.

To add insult to injury, we are living in a time of a cultural shift bent on retiring us **whether we're prepared *or not***. Think not?

Your Mulligan Formula

- ▶ Wake every day and start the day by saying, *"Another Day In Paradise,"* but be careful, it might just be Paradise in comparison to where you might be going.
- ▶ Here's a great one-liner, *"If I Didn't Have Bad Luck, I'd Have No Luck At All."*

- ▶ Make the first thing you do every day a “Thank You” to God for the “Gift” of a new day.
- ▶ Review and Build your Gratitude List. Remember, *“Rhythm of the game – like the rhythm of life.”*
- ▶ Play it as it lies! In other words, “ACCEPT where your life is.”
- ▶ Maintain a GRACIOUS PERSPECTIVE. Rhythm of the game...

Affirmation

*“Growing Older Is Mandatory,
Feeling Older Is Optional.
I Have A PURPOSED Life To Live
And I’m Going To Live It.”*
