## Application for approval to Lease Property

Crestview Homeowner Association (HOA) requires approval by the HOA before any property within the Association is leased. Article 6, Section 6.2 (as revised and recorded 8/26/2005) of the Crestview HOA Covenants Conditions and Restrictions (CCRS) places a cap of 17 units that may be leased and places the requirement of a 12-month lease. Property owners are further required to annually submit (on the anniversary of the lease) an update to the HOA of the status of the lease. Other provisions of the CCRS and association rules govern the use of a property within the HOA.

In accordance with the provisions of HOA documents, the undersigned make application for approval to lease his/her/their property:
