- All investments fully collateralized by real estate
- Government protects your return
- Full Collateral For All Investors

DRIVE
PLANNING

WHAT IS IT?

The C.O.R.E. FUND is a program offering investors up to a 22% return on their money every year for 3 years by participating in aggressive tax lien purchases of large amounts of real estate which are then sold at market value. This is a very profitable business and has state legislation providing guaranteed rates of return. The CORE Fund allows Drive's borrowing partner to secure hundreds of such properties, take control of them and sell them at a very large profit. The investor receives up to 22% per year for 3 years upon which their original investment is also returned.

HOW IT WORKS

The investor's money goes into a pool with other investors to allow our Borrower to have uninterrupted progress in securing distressed real estate encumbered by taxes owed to the city or county. These property-certificates (also called tax liens) are then converted into full deeds and they are sold at full retail. These properties serve as the low risk collateral for your investment. Investors will receive a periodic update of properties purchased & sold.

CHOOSE TO INVEST IN 3 WAYS:

- 1 year investment for 14% return
- 3 year investment for 22% return each year
- 3 year investment for 10% return every 6 months

TAX LIENS

THE C.O.R.E. FOUNDED IS FULLY COLLATERALIZED BY REAL ESTATE

22% Annual Return - Real Estate Backed - \$25,000 minimum

WHAT IS A TAX LIEN?

- Investopedia *"One investment niche that is often overlooked by investors is property tax liens. The increasing volatility of the stock market, combined with still historically low-interest rates, has many investors seeking this type of alternative avenue which excellent rates of return."*

What Is a Tax Lien?

Basically, a tax lien is a legal claim against someone's property or assets when they don't pay the taxes they owe to the government. For example, if you don't pay property taxes, the city or county where your property is located can put a lien on it. This means you can't sell or refinance the property until you pay off the taxes and the lien is removed.

• OUR INVESTMENT PARTNER

Our partner is a privately run real estate investment company that focuses on Tax Liens and Foreclosures. They have been involved in real estate for 20 years. With a focus on the Southeast, their team personally reviews, researches & inspects each property first-hand, and then purchases the best at auction. Their team has extensive experience in IT, mortgage banking & administration which allows their business to run seamlessly. They both hold real estate licenses in multiple states, have been approached by hedge fund investor groups and have done over 120 deals.

• Why we do Tax Sale properties

Counties need money to pay for services that everyone needs! When a property has delinquent taxes for multiple years, the county sells the property to investors at auctions to recoup needed funds. Property taxes assessed against real estate account for a large portion of school budgets (averaging 85%) and local government revenues (averaging 30%).

HOW YOU CAN PARTICIPATE IN THE C.O.R.E FUND

Here are a few important things to remember

- If you have \$25,000
- You can use money from your retirement account
- You do NOT have to be an Accredited Investor
- You can use money from savings

We want to show you how easy and simple it is to participate in tax lien investments. We are passionate about helping regular people grow their wealth the way the wealthy do.

• FAQ

Can I get out early?

We require a three-year investment period to allow time for the investment to mature and grow, make strategic decisions, take calculated risks, and maximize returns. Withdrawing funds prematurely could compromise the investment's ability to achieve its long-term goals. This strategy also attracts like-minded investors who share our long-term vision, creating a community committed to the investment's success.

How long has Drive Planning been offering investments in tax liens?

We have advised our clients to invest in tax liens for over 12 years. Only since 2020 have we offered the CORE Fund investment.

🔥 HOW IS THE CORE FUND A SAFE INVESTMENT?

Our partners, have a perfect track record in tax lien deals - they've never lost any investors' money and always deliver on guaranteed returns. Plus, our Drive Planning team has created a super easy-to-read spreadsheet that shows how profitable tax lien investing can be. You can even check out real estate examples of properties that our investors' money has purchased, which acts as collateral to make sure your investment in the CORE Fund is safe. With a current return on investment of over 90%, you can feel assured that your investment is both secure and very profitable.
