I can't say enough good things to express how happy I am with Eran. I run a field marketing department for various home improvement companies. I asked the help of Eran because the field marketers were getting sluggish. He came in for an eight week program once a week to speak and motivate the field marketers helping them set goals for them selves personally and at work. He is amazing. With his help a lot of the weaker guys on the team suddenly became hitters, and the stronger guys got even stronger. Because of him we've seen our best month ever breaking our previous record of sales by an increase of 30%. I would recommend him to anybody that needs help focusing on anything that they're trying to do in life.

Our canvasser training program not only produces more leads for your business, it also creates processes to streamline the lead. Cohesion. From canvasser to confirmation to dispatch to close, providing job satisfaction for all, resulting in higher profits and greater employee retention.
