

# NEW BESPOKE SOLUTIONS LLC

## BACKGROUND AND CAPABILITIES SUMMARY

**Providing Program Management | Operations | Security, Cybersecurity | Intelligence | Supply Chain | Systems Engineering | Disaster and Emergency Management**

**Custom Technology & Management Assistance**

NEW BESPOKE SOLUTIONS can blend a rich tapestry of expertise in diverse fields to deliver unparalleled solutions. Exceptional analysis skills and insights to achieve. Proven Leadership with a strong portfolio of accomplishments from Startups to Turn-arounds, Revitalizing. Decades of experience (Military, Senior Government, Consultant) cross-functionally in varied disciplines throughout Government - Department of Defense (DoD), Department of Energy (DOE), Intelligence Community (IC), Industry. **Diverse and challenging background with extensive tactical and operational experience (Ground, Subsurface, Surface, Air).**

Portfolio is expansive. NEW BESPOKE SOLUTIONS has gained the skills and experience needed to offer broad-ranging solutions and services to clients in multi-domains and conditions. Not a cliché. Products and services are custom-tailored; and designed, built specifically for your unique requirements. Dynamic application of Artificial Intelligence. Compliant, Compelling – **NEW BESPOKE SOLUTIONS will apply the most feasible means to solve the problem; fill the gaps; and make it happen!!**

- **Management and Operations Excellence:** Streamlining and optimizing processes for adaptability, efficiency, effectiveness, communications.
- **Advanced Security Measures:** Specializing in Cybersecurity and Intelligence to safeguard your interests; and compliance with laws, regulations
- **Systems Engineering and Supply Chain Mastery:** Ensuring seamless integration and optimized logistics; and compliant.
- **Crisis and Emergency Management:** Preparing for and responding to critical situations with precision.
- **AI-driven Innovation:** Utilizing Artificial Intelligence to enhance decision-making and operational capabilities – optimize in all areas.
- **Comprehensive Program Management:** Expertise in Operations and Strategic Planning, Emergency and Facilities Logistics, Technology Master Planning, and training.
- **Multi-Domain Intelligence and Surveillance:** Mastery in All-Source Intelligence (SIGINT, OSINT, MASINT, GEOINT, HUMINT), C4ISR / C5ISR, and Targeting across all platforms.
- **Advanced Solutions Architecture:** Specializing in Technology Lifecycle Planning, RDT&E of sensitive capabilities, and Supply Chain Management (Supply Chain Risk Management (SCRM)).
- **Cybersecurity Excellence:** Providing robust Information Assurance, Cyber Resilience, Threat and Vulnerability Assessment, Risk Management Framework (RMF).
- **Systems Engineering & Integration:** Proficiency in Requirements Analysis, DOTMLPF-P, Model-Based Systems Engineering, and Enterprise Architecture. Specialized capabilities development.
- **Pioneering with Emerging Technologies:** Expertise across land, sea, air, space, and cyber domains with focus on industry trends and disruptive technologies: robotics, RPA, unmanned/uncrewed, drone, UAS.
- **Innovative Biometrics, Identity Management, IAM:** Advanced capabilities in Tech Ops and various sensors (RF, EO, IR, SAR, SONAR; Edge, IoT, IIoT, OT, SCADA, ICS).
- **Tactical Excellence in Special Operations:** Specializing in Cryptologic Support, Electronic Warfare, and Electronic Support Measures,
- **Rapid Development, Rapid Prototyping and Fielding:** Practitioners of sound engineering with expertise in Waterfall, Agile, and Hybrid methodologies for technology and business process improvement; Advanced Concept and Joint Capability Technology Demonstrations leading to global program rollouts across multiple business lines.
- **End-to-End System Development:** Established expertise in developing and employing systems in challenging conditions including high-OPTEMPO, austere, contested environments.
