LARSEN AND TOUBRO

Construction giant Larsen and Toubro (L&T), which had also built the Sardar Patel statue in Gujarat, is behind the design and construction of the Ram Mandir. Housed within a 70 acre complex, the three-storeyed temple has been built without the use of corrosive metals like iron or steel. L&T said the engineering marvel can last a thousand years. L&T shares are up about 3% this month.

HAVELLS

Havells supplied and installed exquisite indoor lighting products to enhance the aesthetic appeal and spiritual ambiance of the sacred temple. The electrical goods manufacturer said the products have been meticulously designed with customized form factors, optics, materials, exclusive finishes to accentuate the architecture. Havells shares have fallen about 2% in January.
