

PACKAGING PRODUCTS (COATINGS) LTD

PALLET SLIP SHEET – 1200 x 1000mm + 60mm TABS (2 Sides) 900 kg Capacity. PROMOTION PRICE £1.35 Each

Description

Slip sheets are an innovative and effective alternative to traditional wooden and plastic pallets.

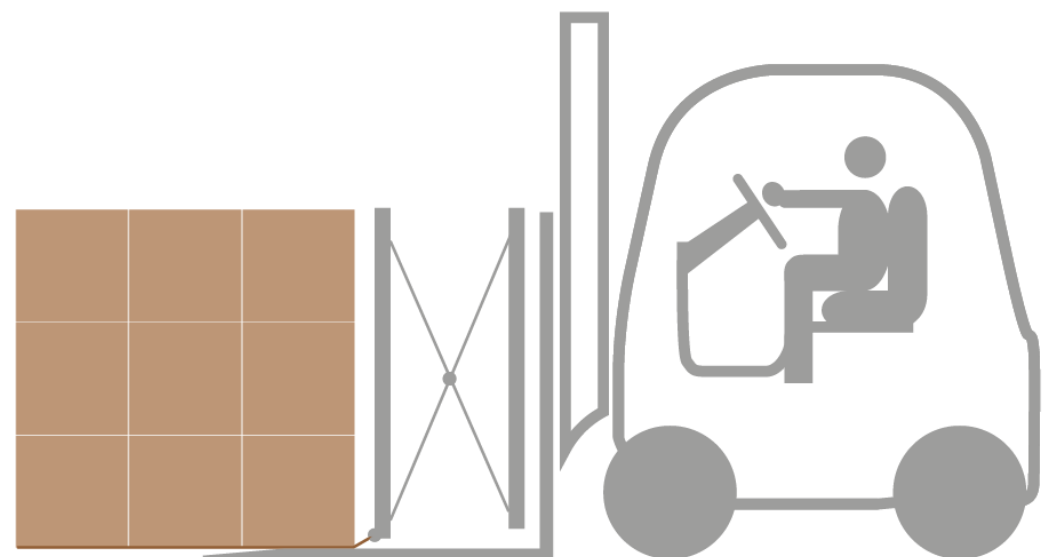

Composition

100% Recycled Kraftliner
Fully Recyclable

Standard Size and Thickness

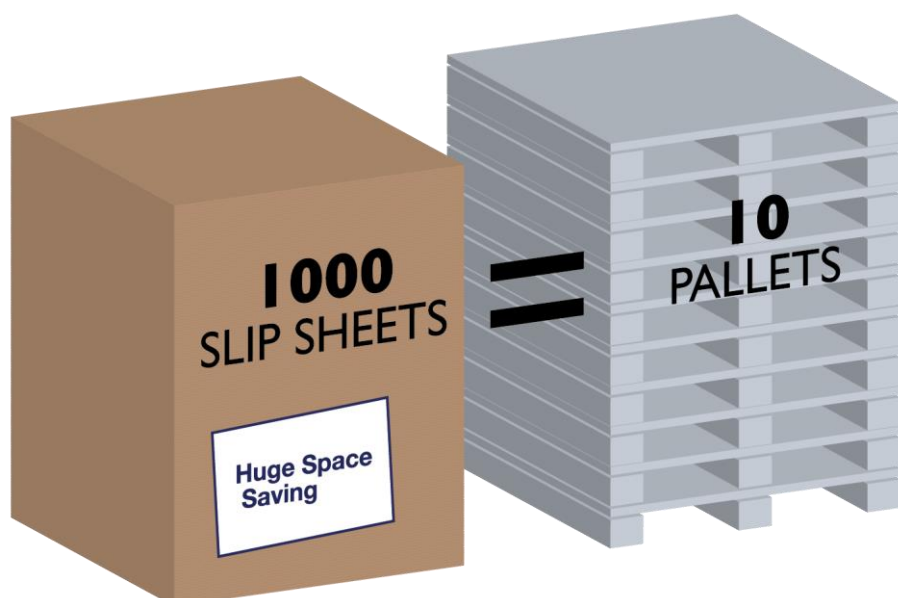

Our standard slip sheets are made from uncoated kraftliner in the following size:-

1200 x 800mm and 1200 x 1000mm with 60mm flaps in 0.8mm thickness (900kgs approx. carrying capacity)

Benefits

- Paper slip sheets are much cheaper than wooden or plastic pallets
- Huge space saving - up to 1,000 slip sheets fit in the space of 10 pallets
- Maximise export shipping container space and minimise loading time
- Slip sheets weigh 20 times less than wooden pallets, saving shipping weight
- Using slip sheets instead of wooden pallets allows for 12-15% more products in transport containers
- Can be customized to fit any size load
- 100% recyclable and reusable
- Unlike wooden pallets slip sheets are not subject to ISPM 15 regulations
