## DOUBLE-STRENGTH

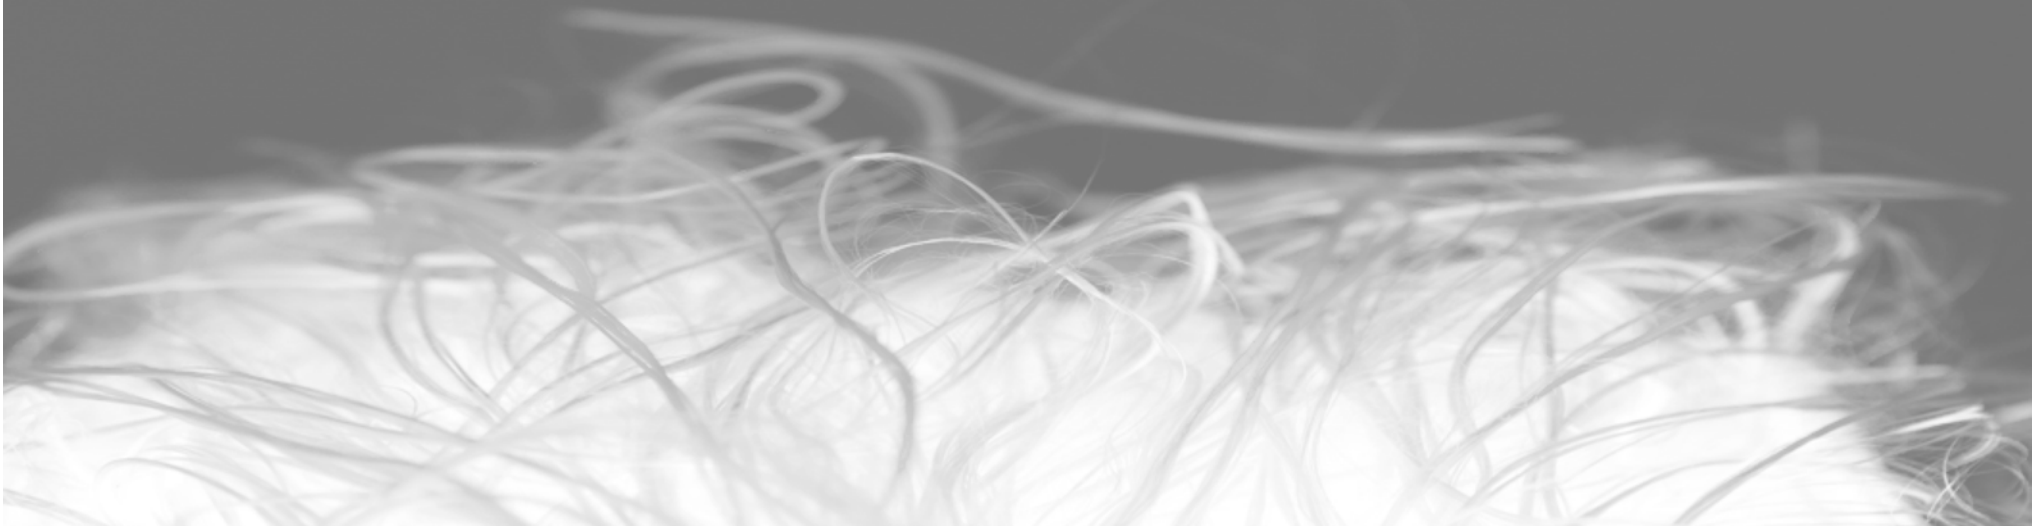

# **TY-GARD**

## **DOUBLE-STRENGTH**

### **DETAILS**

- **Ty-Gard DS<sup>®</sup> is 24" Wide**
- **New Stitch Bonded & Coated Rigid Backing Material**
- **Two bands of original Ty-Gard<sup>®</sup> (32") = 288,000 Fibers of Reinforcement**
- **One band of Ty-Gard DS<sup>®</sup> (24") = 288,000 Fibers of Reinforcement**
- **AAR Approved to substitute two bands of original Ty-Gard for one band of Ty-Gard-DS**

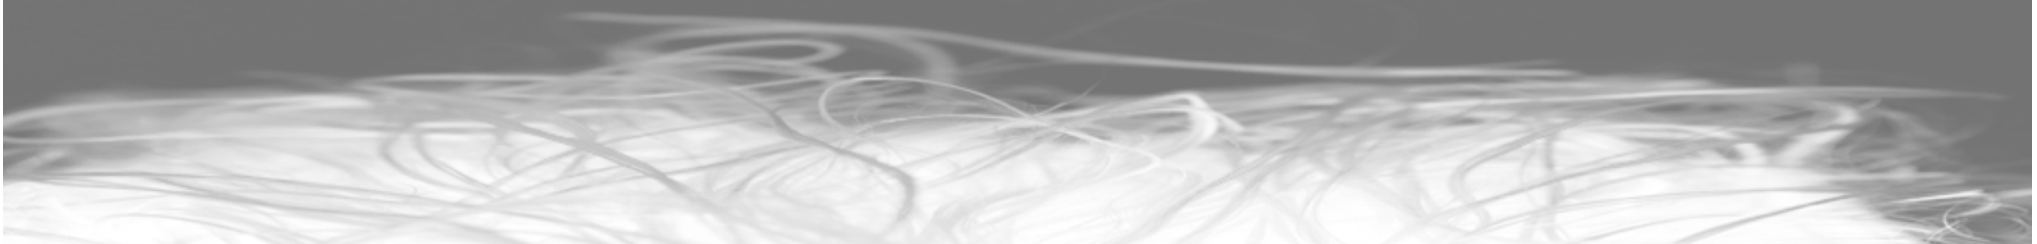

# TY-GARD

## DOUBLE-STRENGTH

### ADVANTAGES

- One band of Double Strength Ty-Gard = Two bands original version Ty-Gard
- Reduces labor / installation time by **50%** making it the quickest and easiest to install system on the market
- Same total material cost as standard Ty-Gard
- Rigid fabric easier to handle and in many cases plywood is not required
- Improved lightweight tensioning tools easier to use

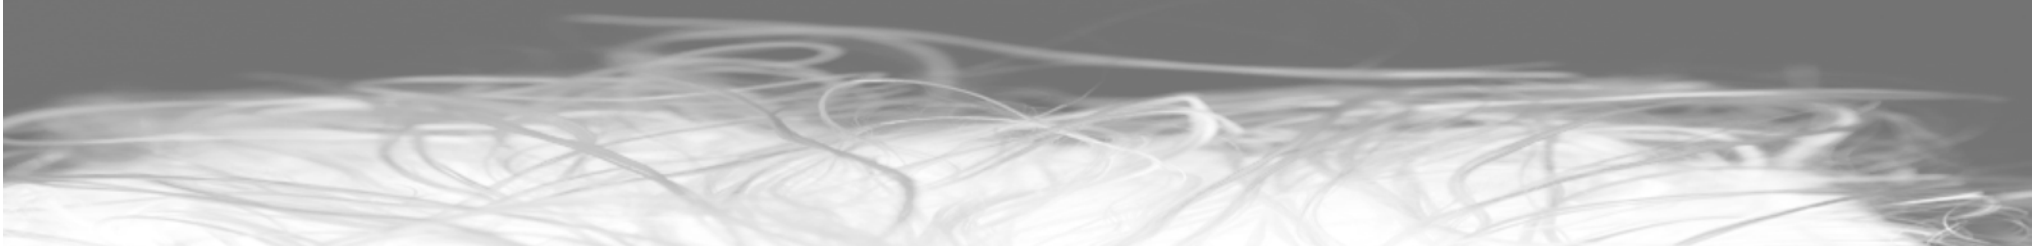

# **TY-GARD**

## **DOUBLE-STRENGTH**

### **ADVANTAGES**

- **One band per layer of cargo leads to consistent tension compared with two bands**
- **Half the number of bands to measure and mark**
- **Increased rigidity reduces wrinkling and no sagging / slack bands**
- **Passed 80 Drum AAR Impact TEST with almost no movement**
- **Pre Spliced Option**
- **Fastest to install and most effective approved system on the planet....**
