Re: House Raise Feasibility Assessment Report- Approved
XXXXXX

To Whom It May Concern,

Belt Engineering has performed an inspection on September 21, 2023, at the property referenced above. The existing structure is a one-story single family residence. The structure has a slab on grade foundation, CMU exterior walls and conventional wood roof framing over the main structure, and trusses over the addition. Belt Engineering certifies that the structure is in good condition and may be raised.

Belt engineering holds no exemptions and believes the structure may be raised as intended. Should you have any questions, please feel free to contact me by phone (813) 961-3075 or email, AZuloaga@beltengineering.com.
