**To Whom It May Concern:**

**RE: Statement of Support — Community Bus Initiative**

On behalf of the **Pender Harbour Wildlife Society**, we are pleased to support the Loon Foundation's proposal to own and operate a shared community bus for the benefit of the Pender Harbour community.

Transportation options in Pender Harbour are extremely limited, creating barriers to accessing services, programs, and opportunities — particularly for youth, families, seniors, and those with limited incomes. A community bus would significantly improve access, connection, and overall well-being.

Shared use of the bus would strengthen collaboration among local organizations and increase community engagement by enabling residents to participate in activities they might otherwise miss due to transportation barriers. We also support purchasing the existing bus from the Pender Harbour Seniors Centre, helping retain this important community resource.

Sincerely,

**Pender Harbour Wildlife Society**
